Dear Readers,

The 1986-1987 ROLLAMO staff has worked many long and hard hours over the past year to capture for you the events that make UMR **Distinctly Different**. A campus of approximately 5000 students, a 3 to 1 male/female ratio and dominated by engineering and science majors, UMR has many unique aspects, some of which we have brought out in the pages of this book. Not to be overlooked are the liberal arts students. We have not forgot you are part of UMR, but in bringing out the uniqueness of UMR we wanted to stress the scientific and technical atmosphere that exists on campus. I hope you enjoy this issue of the ROLLAMO, I am very proud of the staff and feel we have put together an excellent representation of the years events for you.

I would like to thank the 1986-1987 ROLLAMO staff for standing behind me throughout the year. I enjoyed working with each of you and you will always have a special place in my memories of my college career. Rita, Cathy, Craig and Marlo, you are young and new at this game, but you have an excellent opportunity to make the most of this yearbook in the next four years. I hope you stay with it and enjoy it as much as I have.

Rosie, thanks for coming in and helping me get my feet on the ground, I could have never written all that copy on my own. Becky, thanks for all your help and good luck next year. Tim, you were just what the staff needed in January. You came on the scene and gave us a breath of fresh air and helped me to laugh at myself and realize that we can still enjoy ourselves while we work at putting the book together.

Sandy, you have helped me maintain my sanity throughout the years, been a friend when I needed one and I wish you the best of luck in your new

career. Brenda, four years ago we were new at this and just learning how much fun working on the ROLLAMO can be. We will both be moving on to new opportunities, but when you think you have reached the end of your rope, look back on the past four years and remember you can do anything you set your mind to.

Lance, you have been more than an advisor over the years, and I want to thank you for all your help.

I want to thank the photography staff, especially Bill, Galen and Mark for sticking with me throughout all the trying times. You took the many assignments despite your time constraints and came through for me time and time again. Mark, thanks for being my number one photographer and giving me the incentive and support to finish the book when apathy was running high. Thanks for listening and just for being you.

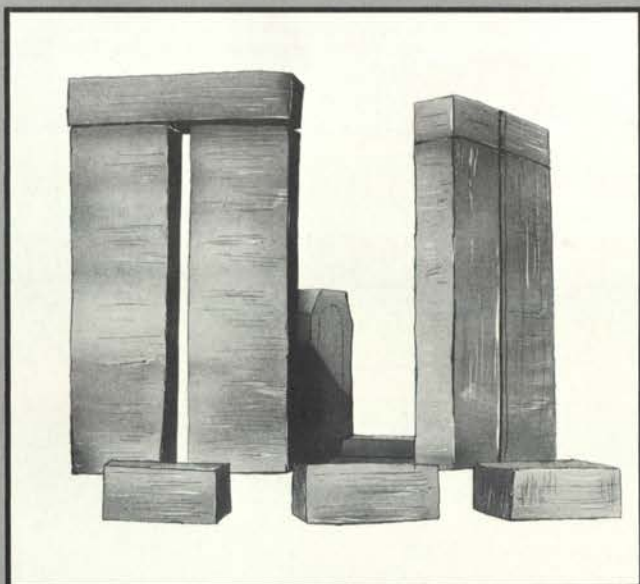

Last but not least, thanks to my dearest friend, Carla, you have helped me look objectively at the staff, yet see them as the friends they are. What more can I say that you don't already know?

The book is done and I can say the famous line for the last time. Sounds great, print it!

Sincerely,

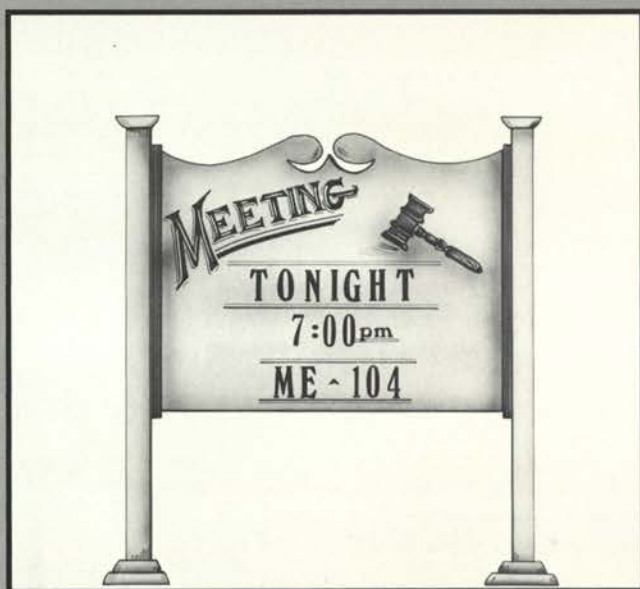

M. Diane Clements

Parents' Day

Enoch "Joe" and Rose Cole of Crestwood, MO were named UMR Parents' Association "Parents of the Year" for 1986. The Coles were honored during half-time activities at the Parents' Day football game, Saturday, October 25.

Enoch Cole, who is currently retired, works part time at the Kirkwood YMCA. He was recently appointed to the Governor's Advisory Council on Aging for a three year term. Some 40 years ago, Cole founded "Club 44," a community service organization in the St. Louis area. The club sponsors a range of programs and services for both the young and old of the community that emphasizes leadership, sports, and Christian principles. The Club 44 motto is "working together for God and 4 country" and all of its activities are done with this objective in mind.

Rose Cole is active in volunteer work at St. Peter's Catholic Church and participates in various other community activities.

The Coles were nominated by their daughter Anita, a UMR engineering management major. She is the youngest of seven children and is especially proud her parents were able to provide a college education to all seven children.

Rose and Enoch, "Joe", Cole with their daughter, Anita Cole, who nominated them for the honor of "Parents of the Year."

The University of Missouri-Rolla's Remmers Special Artist/Lecture series brought the world reknown opera star Anna Maffo and former director of the CIA, Stansfield Turner to the UMR campus.

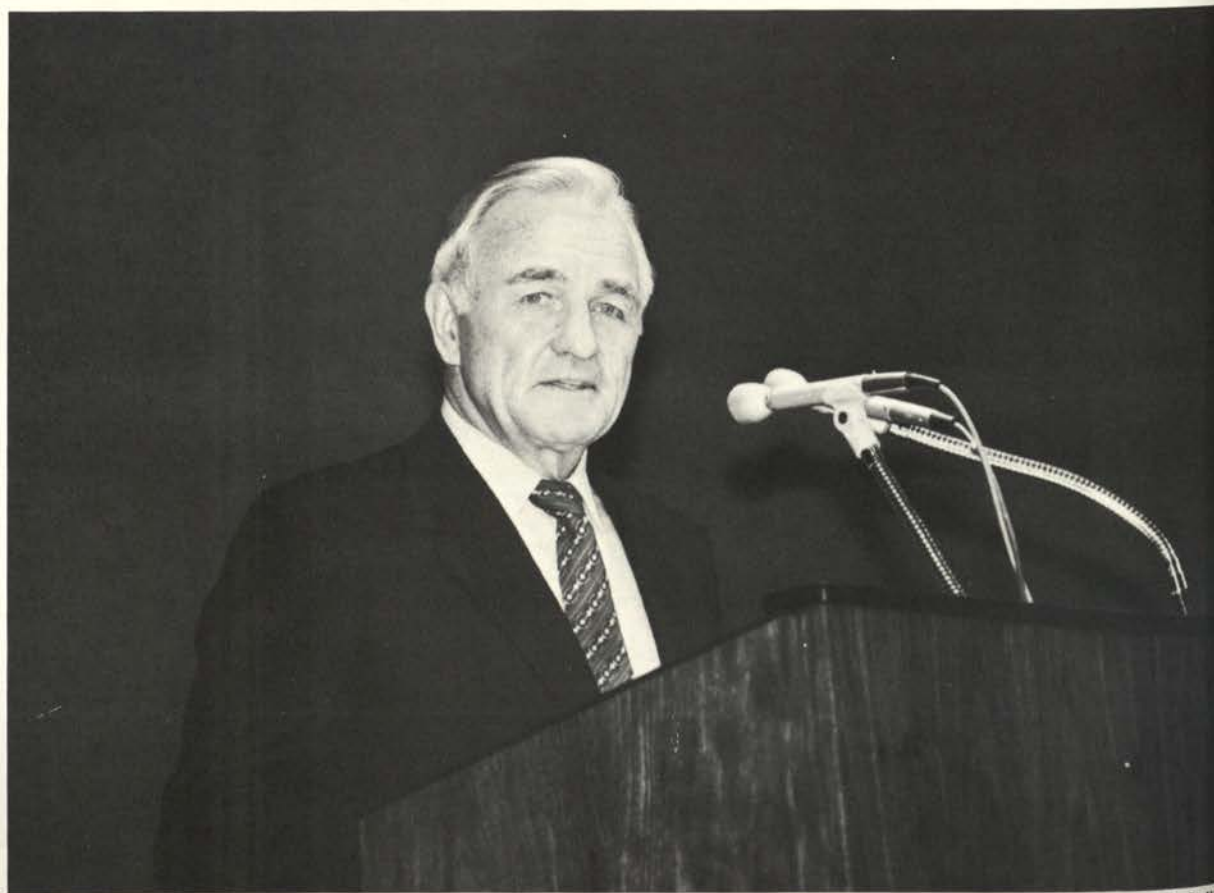

Anna Maffo has sung more than 25 major roles at the New York Metropolitan Opera and has also starred at the leading opera houses of the world. She has performed at music festivals worldwide including the Kennedy Center and Chandler Pavilion.

Stansfield Turner, former CIA director from 1977 to 1981, was presented the National Security Medal by President Carter in 1981. He is an author, lecturer, TV commentator and columnist. He is currently working on a book on terrorism. He is a member of the Board of Directors of the Monsanto Company and the National Life of Vermont.

UM-Rolla's Remmers Special Artist/Lecture series is supported by a fund established by UMR Alumnus Walter E. Remmers; his wife Miriam; and other members of his family.

Flag raising ceremony honors U.S. veterans

Members of the Veteran's Assistance Association, along with the UMR Army and Air Force ROTC units, celebrated Veteran's Day with a flag raising ceremony to show respect for American veterans.

During the ceremony, Dean Edwin G. Lorry, professor of Ceramic Engineering and a WWII veteran, spoke to

the crowd gathered in front of the library. Dean Lorry reminded the audience that Veteran's Day commemorates individuals who have defended the United States to preserve our freedom. Some of these individuals have been UMR students; according to Dean Lorry, 827 UMR alumni currently serve in active duty.

AFROTC Cadet Captain Mike Harting, an organizer of the Veteran's Day celebration, addresses the crowd.

Angel Flight

Forms new chapter at UMR

This semester saw the beginning of a new organization known as Angel Flight. Angel Flight is a collegiate women's service organization and is wide

spread nationally. It is sponsored by the Arnold Air Society and the Air Force ROTC cadet organizations, but is nonmilitary and open to all female students.

H. Gaber

ARNOLD AIR SOCIETY: The objectives of this organization are to further the purpose, traditions, and concepts of the United States Air Force, aid the development of effective Air Force officers and to advance air and space age citizenship.

Taekwondo

Club member is going for the gold

UMR Taekwondo Club was successful in both local and national competition this year. One member in particular was a star.

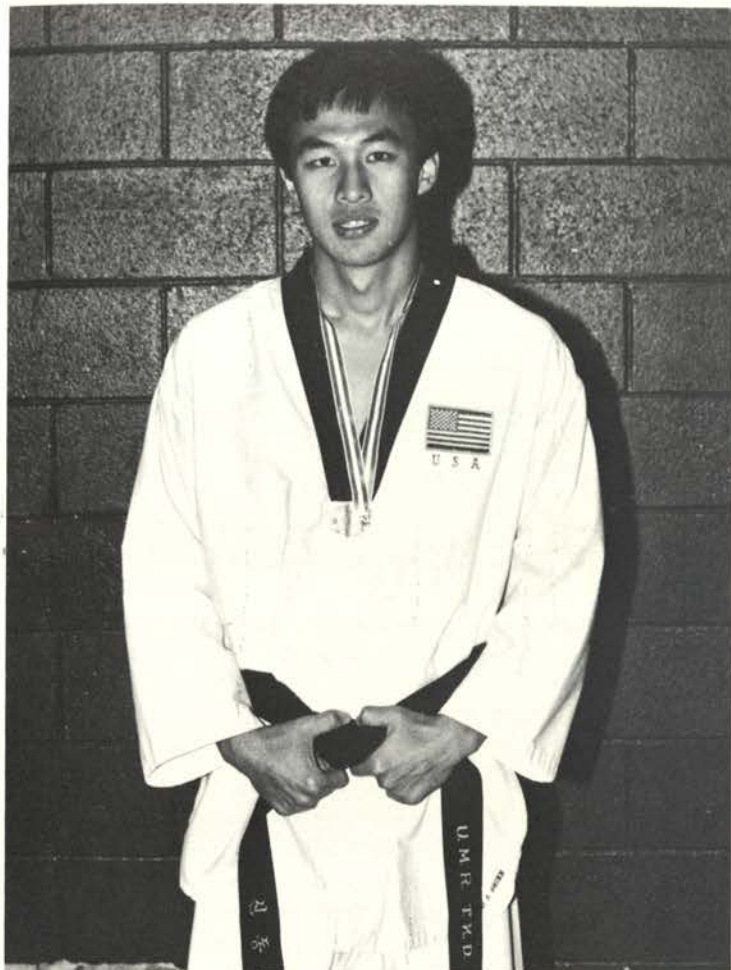

Club instructor Steve Shinn, a senior in Ceramic Engineering, won a bronze medal at the National Collegiate Championships in Berkley, California in October. Shinn, a competitor in the lightweight, middleweight, and heavyweight divisions, began his Taekwondo career in his early childhood. He received a Junior Black belt at age seven; ten years later, in February 1982, he was awarded with a first degree black belt. While at UMR,

Shinn has been head instructor and president of the UMR Taekwondo Club, Missouri State Athlete Representative, and runner up at the Grand Nationals for Sigma Nu Fraternity Athlete of the year.

Last summer he trained at the U.S. Olympic Training Center in Colorado Springs, Colorado under Olympic Team Coach Master Sang Lee. Making the national team and winning the gold medal in Taekwondo at the 198 Olympics are Shinn's goals.

Free fighting defense tactics are the "weapons" used in Taekwondo combat. Here, Steve Shinn and an opponent use self-defense techniques in competition.

Olympic gold medal-hopeful, Steve Shinn, has won state and national competitions while studying ceramic engineering at UMR.

UMR
Theatre
presents:

The Real Inspector Hound

M. Broeker

Cindy Cobb (Felicity) and Mark Walters (Inspector).

The Real Inspector Hound was first produced in London in 1968. Critic Ronald Hayman has called it "A play outside a play". Characters seemingly outside the action on stage of the "inner play" are inextricably drawn into the action, exchanging places with actors who are then placed outside the inner action. Chaos, exchanged identities, suspicious characters, clumsy situations and absurd proceedings abound. Agatha Christie's *The Mouse Trap* and numerous theatrical conventions are also the objects of Stoppard's satire. An audience must be constantly alert for clues — even in the ponderous moments. Critic Thoman Whitaker's words point to "The notion that performers and patrons are two sides of the same coin, or the same side of two coins."

M. Broeker

George Purcell (Birdboot), Jackie Miller (Cynthia), Cyril Pimentel (Magnus), Hugh McKean (Simon), and Cindy Cobb (Felicity).

Student Chapters

Recruitment:

On Saturday, April 25, 1987, as part of the UMR Open House Activities, the National Society of Black Engineers conducted its Spring High School Recruitment Day. A number of high school juniors and seniors from St. Louis visited the campus, with transportation provided by NSBE.

The day was carefully planned with a host of activities organized by Carmelita D. Green and her committee members. After the students' arrival in the morning, they were greeted by Dr. Ken Robertson, Dean of Students, and Dr. Ronald Fannin, Director of the Freshman Engineering Program. Dee Hamilton, Assistant Director of Student Financial Aid; Deborah Burris, Assistant Director of Admissions; and Floyd Harris, Director of the Minority in Engineering Program also spoke to the students.

Later the students toured the campus, including various engineering departments, which displayed experiments and demonstrated areas of current research and study. In addition, Randy Shed, a UMR alumnus, visited with and spoke to the students about the importance of a college education.

The highlight of the day was the picnic lunch provided by NSBE for the high school and UMR students. This allowed the high school students to interact with college students and find

out more about college life. The whole day was a huge success, and much can be attributed to an effective NSBE board and active members.

ACM Members attend conferences

ACM sponsored a general conference and computer science symposium in St. Louis during February this year.

Computer science students who attended the conference and symposium could participate in activities, including an ACM scholastic programming contest. Other activities included panel discussions, exhibits, an employment regis-

tration and special sessions on expert systems, computer graphics and computer science education.

UMR Computer science faculty members served as co-chairmen and treasurer for the event, and Chancellor Martin Jischke spoke about "The Importance of Computer Technology" at the welcoming address.

ASEM

attends conference in Ames, Iowa

M. Broeker

Tim Pemberton was the 1987 Scholarship recipient and Kimm Boeker won the 1987 Student Excellence Award.

The American Society for Engineering Management represented the University of Missouri-Rolla at the Midwest Industrial Engineering Regional Conference held at Iowa State University in Ames, Iowa.

The most informative session was presented by Dr. Moko-to Lee, Professor of Sociology, Iowa State University. She spoke on the Japanese style of management and its application in American industry. She also contrasted Japanese and Ameri-

can cultural attitudes.

The evening was capped off with an awards ceremony and dinner featuring Don Simpson, Vice President Plastics Manufacturing Division, General Electric, as the keynote speaker. Maria Dignam did an excellent job of presenting her technical paper "An Analysis of Statistical Process Control to a University Library Heating Problem." She was awarded an Honorable Mention for her efforts. The dinner concluded with a magician.

ASEM members attending the Midwest Industrial Engineering Regional Conference at Ames, Iowa were Darla Capps, Maria Dignam, Sharon Wingron, Anne O'Conner, Kimm Boeker, Tim Pemberton, Steve Raper, Bruce Bolmes, Jim Owens, Terry Mockler, Dan Ray, Bruce Berwick, Jim Pisoni (president) and Dr. Madison Dailey (ASEM advisor).

getting mohawks.

Boasting the largest team ever, Women's Cross Country takes a step

In the right direction

Just as a good solid house is built brick-by-brick, a good solid team is built player-by-player. And that's exactly what Coach Sarah Preston spent this season doing, building a team. Ten girls ran this year, composing the largest women's cross-country team ever for UMR. With six freshmen, a strong nucleus of three juniors, and one senior, Coach Preston felt the team was finally going in the right direction, stating, "It was great to have this feeling of camaraderie among the girls."

The team generally finished "middle of the pack" throughout the season, winding up 5th in the conference. Several members of the team set personal records, led by junior Julie Board, MVP for the third year in a row. Julie qualified for nationals this year, placing 35th at the University of California-Riverside. She also was a member of the MIAA Academic team, and set a personal record of 18 minutes 20 seconds in the 5000-meter run.

Coach Preston was generally satisfied with this year's season. "Lots of injuries hindered our placing, but overall the girls gave a good performance. The freshmen are really psyched for next year, and we're all looking forward to a great season."

Exhausted, runners Krista Potter, Stephanie Zink, Shelly Brooks, and Chrissy Adkisson gather around Coach Sarah Preston after a grueling race.

Determined to endure the elements, runners Beth Rezac and Krista Potter race through the soggy field toward the finish line.

Amidst a pack of runners, Amy Volmert and Julie Board begin a long race.

Over the river
and through the woods

To the MIAA we go

Lots of practice, good luck, and a lack of injuries are three essential factors for any successful athletic team. The UMR cross country team used these factors plus determination to forge their best season to date. Of 143 teams nationwide, the Miners boasted a Top 20 ranking the entire season, ending up in the number 16 slot after being ranked as high as 13th throughout mid-season. "This is definitely the most talented team to ever run for this university," stated a very content Coach Dewey Allgood. "Our consistently high national ranking justifies that."

UMR handily outran most of their opponents. The only notable exception was the Miners' fifteenth-place finish at the University of Kentucky Invitational, which was dominated by many of Division I schools participating. The UMR 'Pack in Black' rebounded with vengeance, taking second place at their own invitational and fifth place at

the Bradley Invitational. Two prominent teams bested by UMR during the '86 season were the Air Force Academy and Missouri's better known Big Eight school, the Mizzou Tigers.

The Miners were paced by MVP-runner Tim Swinfard. Swinfard finished first for UMR in all races except one, in which Kurt Whittel was tops in team standings. Both Tim and Kurt went into the record books after being named to the MIAA All-Conference team. This was the first year in which two Miners were chosen for the elite group of runners. Other team members receiving letters were Jeff Balmer, John Borthwick, Mike Deamer, Brad Murphy, Tim Cross, Ron Rosner, and Dave Vonarx. "Everyone plays an important role on a cross country team," stated Allgood. "If our fastest runners don't do well, our slower runners can take up the slack by finishing ahead of the other teams' slower runners."

UMR narrowly missed qualifying

for the nationals, which left Coach Allgood only a little dejected. "We had a bad day, those things happen. But I am very proud of the boys this season and not at all disappointed."

Lady Miners achieve best win-loss record ever, despite

Goalkeeping '86

Everyone is aware of the Missouri Lottery by now, however few know of the UMR women's soccer team's lottery during the 1986 season. The name of this game was 'GOAL-KEEPING '86'. Due to injuries and a small turn-out of players, the Lady Miners found it difficult to maintain goalkeepers and other positions. The number of relief players at any given time was never greater than two, while many times UMR had no reserves at all. Starting goalie Michelle Ditton went down in the first game, thus putting second year head coach John Watson in an uncomfortable position. As a result, four girls divided the goal-keeping chores.

"After Michelle was injured, Angie McIntire pretty well took over. But Sally Puhlick, Jean Gardiner, and Missy Warfield all saw their share of time in goal. Angie did very well, but when we were far enough ahead, she came out to play her regular position. Then someone else would play goal-keeper."

The lottery apparently paid off, as UMR finished with a commendable 12-7 record on the season. After a slow

start, the girls were in high gear going into the middle of the season. The '86 Lady Miners were talented, worked hard, and played well together, scoring a rather high 61 goals on the season while allowing only 31. A new record for most goals in one game was set as UMR racked up 15 points against the University of Arkansas. This easily surpassed the old record of 9 points.

Freshmen Mary Gasper and Lisa Tieber played well throughout the season and led the team in scoring with 16 goals apiece. Sally Puhlick and Debbie Lewis both scored in double figures, while Gina Dressel contributed by playing extremely good defense. Missy Warfield, a standout on the UMR women's basketball team, helped out in the understocked goal keeping department.

Continuously hindering UMR, however, was the lack of reserves. "It is difficult to play competitively against teams like Colorado (ranked third nationally) when they have four players for every one of ours. Adding

unbearable hot and humid weather makes defeating such teams next to impossible," admitted Watson. With five girls graduating and competitive recruiting, Coach Watson is somewhat apprehensive about next season. "Other schools 'steal' the good players from us with better offers. Our total scholarship fund doesn't amount to what the better players at some other colleges get in one semester. Plus, we need girls who are bright and interested in science and engineering. I guess that's what makes our players different, or unique, when compared to girls from other schools."

Without the problems of recruiting and injuries, UMR might well have been ranked in the Top 20 nationally throughout the 1986 season. The ladies played top-notch soccer throughout the year and recorded one of UMR's best win-loss records ever. Coach Watson stated he enjoyed having such a good season and appreciated having such a great bunch of girls to work with.

Young men's soccer team views season as

Foundation for the future

When the team is very young and plays one of the most difficult schedules in its division there are bound to be some problems for a while. Just such problems were encountered by the Men's Soccer Team this year, as their season record fell to 5-14. Perhaps more prevalent than the schedule was the youth of the team. According to Coach Paul McNally, "At any point in time up to eight freshmen were in the starting lineup." Because of the young team, however, McNally sees an improving future. "This has been a building year, with lots to look forward to."

The highlight of the season came with a second place finish in the Illinois State Invitational, in which UMR

was the only Division II team. The Miners defeated the University of Louisville 1-0, then suffered a disappointing 1-2 loss to Memphis State, but came home with second place honors. Outstanding individual performances throughout the season were given by juniors Tim Chojnacki and Bill Vondera, as well as freshman Kurt O'Brien. Playing outstanding defense were sophomores Joe Rumping and Erik Hauser, plus senior John Laaker.

Though this season was not all Coach McNally had hoped for, it served a good purpose. "This was a learning season. I feel it's started a serious foundation for the future."

Homecoming motivates
students and alumni to

Build for the future

In an effort to spark some excitement and to make this year's homecoming something to be remembered, the Homecoming Planning Committee and the Student Union Board (SUB) worked persistently through the week presenting new entertainment and activities. The planning committee chose "Building for the Future" as the theme for Homecoming 1986 to highlight the current construction on campus.

Even before the promising weekend arrived, students were swinging into the spirit of homecoming. A ceremonial lamp shone continuously to signal the alumni home to campus and fraternity lawns turned into display fronts for masses of boards, wire, and clusters of tissue paper.

Leading up to the weekend, SUB sponsored a number of events including a three-day scavenger hunt, hard hat day, a frisbee show, and free caricatures done by professional cartoonists.

Beginning the weekend Friday evening, a parade led by Chancellor Jischke and his wife, began at the University Center and ended up at the M-Club bonfire. The parade featured mini-floats built by various campus organizations, the Marching Miners, and the Highland Pipers. The floats were then added to the heap of materials which made up the bonfire. The bonfire included the introduction of the football team, cheerleaders, and the queen candidates. "There were easily over 400 people who attended the bonfire. It was the best crowd ever," said SUB coordinator, John Watson. The grand finale to the bonfire was the fireworks display. After the Concert in the Sky, the crowd made its way over to the Miner Recreation Building and danced to the great sounds of Caruso.

Photos by M. Broecker

The homecoming parade progressed from the University Center to the construction site of the bonfire.

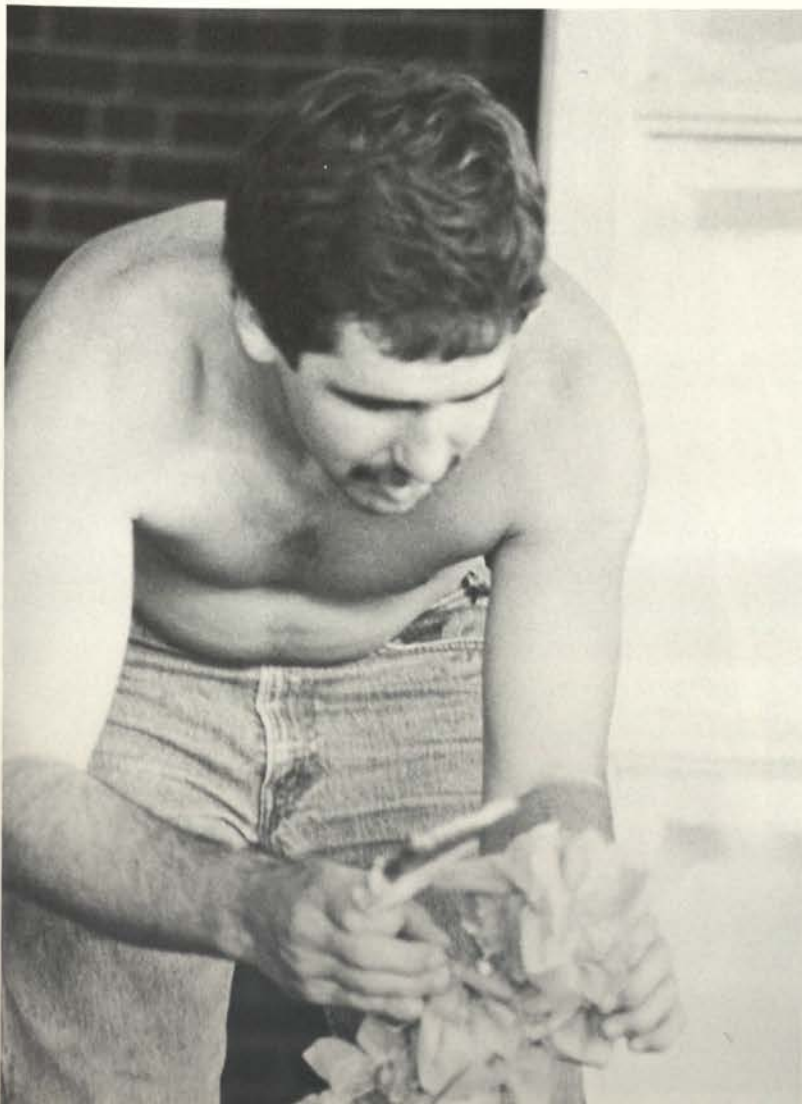

The floats from the parade were the final addition on a towering bonfire.

Preparing a homecoming lawn display takes time and effort. Jim Sanders and Gene Erker of Tau Kappa Epsilon lend a hand to construct their version of "Terminate the Indians." This year's lawn display contest was won by Triangle.

Putting on the finishing touches, Mike Miller pumps the remaining pieces of Joe Miner for Sigma Nu's lawn display.

Miner spirit was brought to a peak on Saturday as the crowd gathered at New Jackling Field. Pregame activities included the Queen's procession and the IFC pajama race which was won by Sigma Nu.

The football Miners clashed helmets with Southeast Missouri in an MIAA contest. The Miners finished on the wrong side of a 30-12 contest

against the SEMO Indians. Head Coach Charlie Finley best summed up the game when he said, "They out-hit us and out-executed us. When that happens, you lose."

During halftime of the football game, the crowd anxiously awaited the announcement of Gianne McNutt as UMR's new Homecoming Queen. Gianne was nominated by

TJ south and is a junior in nuclear engineering.

Other homecoming sports events included a men's soccer game and an alumni rugby game. The UMR men's soccer team raised its winning record as they beat North Central College, 6-1.

Parties, football and enthusiasm were all part of a memorable homecoming for students and alumni alike.

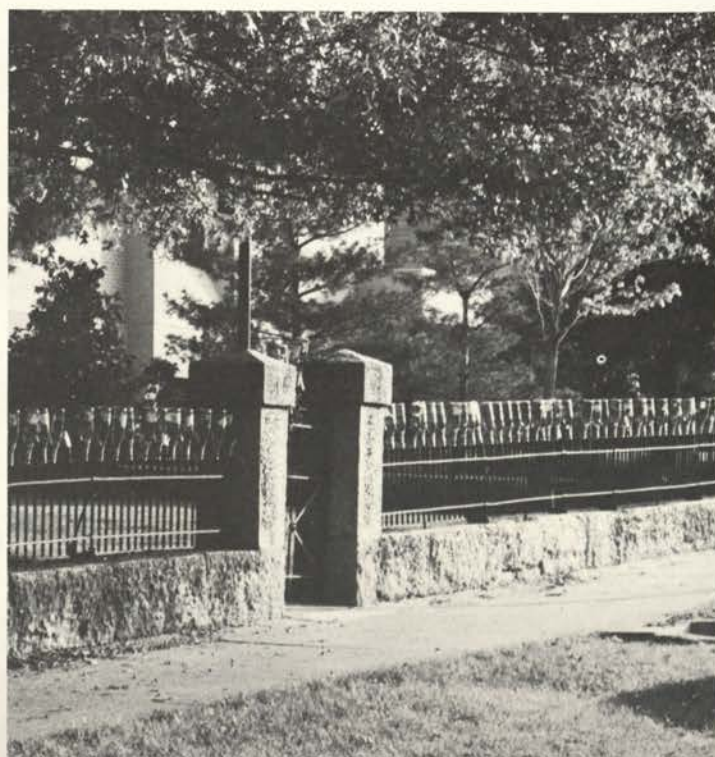

The UMR Miners hosted the SEMO Indians for the traditional homecoming game. The Miners fell to a stronger SEMO team by a 30-12 loss.

Youth and inexperience
pulled the Miners
together for a

Team effort

With the loss of 23 seniors from the previous year, the Miners knew they would find it difficult to put together a winning season. However, UMR produced an exciting season in 1986, breaking a number of long-standing team and individual records.

The Miners started their season by winning their first two games, and going into the MIAA opener, UMR was 3-1. Playing their first conference game, the Miners butted heads with the Central Missouri Mules. UMR came up short when CMSU was able to return a kickoff for a touchdown with less than two minutes left in the game. The offensive highlight of the season was the game against Lincoln University which they won 53-6. During the game, the Miners broke several team records

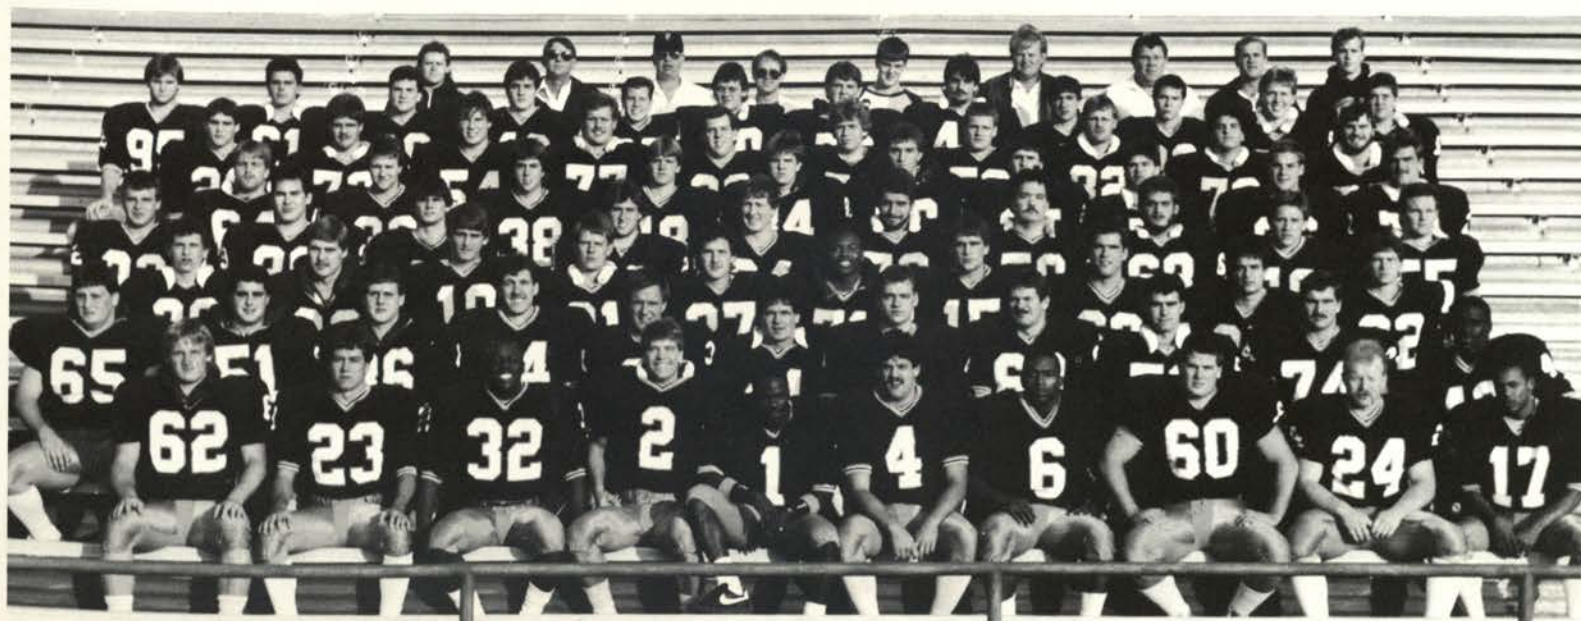

including; most rushing attempts (78), total first downs (32) and most yards rushing (467). The Miners went on to finish the season with a 5-6 record overall and a 2-3 record in league play.

Even though the season was a bit disappointing, bright spots were to be found within the team. Quarterback Brad Haug and receiver Ron Reimer highlighted the offensive team with an exciting passing game. Haug threw for a record-breaking 15 touchdowns, while Reimer led the team with 7 touchdown receptions.

Ten UMR players received All-MIAA honors. First-team offensive honors went to receiver Ron Reimer and offensive guard Eric Wiegand. Wiegand became the first player in league history to gain first-team honors four

straight years. Second-team selections went to kicker Jim Zacny, linebacker John Hentges, and defensive backs Vernon Huggans and Lloyd Flowers. Miners gaining honorable mention were quarterback Brad Haug, runningback Tom Reed and defensive backs Tony Kaczmarek and Rip Stringer.

"Our team was very young and inexperienced this season, and with that you are going to get some mistakes," head coach Charlie Finley said. "But I thought the team played hard, gave us a good effort and should improve during the next few years."

All the character building years for the Lady Miners paid off with a

Record of success

The 1986-87 UMR Women's Basketball season marked the beginning of a new era of excellence on the court. None could deny the confidence, desire, and never-say-die attitude shown by the Lady Miners week after week.

After subjecting the team to strenuous preseason workouts and to Coach Mary Ortelee's own unique style of motivation, UMR entered the season ready to take on the competition.

They completed the season with an impressive 19-8 record. "We had fun. To win 19 games after losing 19 games last year proved that Rolla is a competitive force," said Coach Ortelee.

When the Lady Miners looked back after their first ten games, they found themselves with a 10-0 record and a national ranking of third. They had gained the respect of other teams in the league; especially after defeating two well recognized Division I schools, Dartmouth and Furman University. The high point of the season also came during Rolla's ten game winning streak. During the Washburn Classic, UMR upset conference oppo-

nent, Northwest Missouri, 106-90.

The Miners travelled to Cape Girardeau for their first conference contest in game eleven. UMR had a chance for victory. But the women's record turned for the worse as they lost to Southeast Missouri in a heartbreaking score of 72-73. A loss to Central Missouri that same week dropped the Lady Miners from the national rankings.

During the final three games, there was a lot of pressure on the team to win game number 20. It seemed the Miners would complete their goal during the last home game against Northwest Missouri. It was an exciting and suspense filled game as it went into double overtime. Final score: Northwest - 92, UMR - 88.

All eight of UMR's losses came from within the conference, where they finished with a 7-8 record. "We play in one of the strongest leagues in the nation. It just shows you can't take anyone in our conference for granted," said Coach Ortelee.

The Lady Miners also experienced some firsts; what Coach Ortelee referred to as "icing on the cake." Some

of the achievements which made their way into the record book included: the most points in one game; 106 by UMR against Northwest, they were 8th in the nation with their shooting percentage, and 2nd in free throws.

Personal efforts were recognized with all-conference awards. Tanya Hough was selected to the first team all-MIAA, Dianna Pasley made second team all-MIAA, and Susan Mullins and Jennifer Cordes received all-MIAA honorable mention. Mullins was also awarded the UMR All-time leading scorer award. After a four year college career, Mullins tallied 1202 points.

The Lady Miners will be losing some 27 points to the graduation of Mullins and Pasley, but Coach Ortelee is looking forward to next season. "It would be hard to improve on our record of success. But with recruits and lots of hard work, we may return next year," concluded Coach Ortelee.

WOMEN'S BASKETBALL: 1st Row: M. Pudlowski, L. Haning, S. Vaughn, D. Pasley, C. Neal, M. Warfield. 2nd Row: Coach M. Ortelee, T. Hough, J. Cordes, J. Robinson, T. Clemons, S. Zink, S. Mullins, Asst. Coach K. Kramer.

The Miners posted a winning record as they wished Coach Billy Key

A farewell season

As the 1986-87 basketball season drew to a close, Billy Key ended his 30 year collegiate coaching career. Key retired among the ten winningest coaches active in the NCAA Division II with 387 collegiate wins and 542 career victories.

The Miners gave Key a winning season to close his coaching career as they finished with a 15-11 overall record. UMR played extremely well through mid-January as they won their first eight games, and going into the conference opener at Southeast Missouri, the Miners were 8-2. SEMO handed UMR their first conference loss, 75-66. The Miners then played three straight conference games against Central, UMSL, and Northeast, and were victorious over all three. By this time UMR was sitting on top of the world as they enjoyed an 18th place ranking in the nation after taking second in the Quincy Tournament and winning their first three of four league games, two of which were on the road.

Then the terrified midseason slump hit the Miners as they lost seven games in a row. UMR regained their strength for the final games of the season as they won four of their last five. In conference action, the Miners finished the season 5-9.

Key noted that the Miners were

smaller in size compared to most other teams they faced, but that they molded together and played better basketball than most had expected. "It was a strange season. We didn't play well at home, but played well on the road, which is contradictory to basketball," said Coach Key.

One of the highlights of the season came when UMR defeated Warrensburg in a close contest, 75-73. This was the first time in several years that the Miners had beaten the Central Missouri Mules.

Individual efforts by Duane Huddleston and Julius Lewis led the team throughout the season. Huddleston had an outstanding season as he averaged 20 points per game and made 52 percent of his 3-point attempts. He was chosen as the MVP in the Quincy Tournament and was selected to the First Team All-Conference. Lewis also had a fine season, averaging 14 points per game and led the team in rebounds. Lewis and Bill Walker were chosen as all-MIAA honorable mention players.

Assistant Coach Dale Martin will take over next year's team which will include a strong nucleus of six returning players.

Optimism and talent have the varsity rifle team

Shooting for the top

Building a successful program from interest alone is a difficult task, but UMR's varsity rifle team has been successful in doing just that. The experience the shooters come in with is just luck of the draw. Coach SFC Jessie Griffin feels that his team has been able to come into the program and pick up the skills necessary to do well during their meets. "Without the experience of returning team members, there wouldn't be a team," said Griffin.

The Miners experienced their best season in 15 years as they competed across the nation. They finished 22nd in the nation for small bore rifles and also placed 23rd nationally in air rifle competition. This was the first year UMR participated in the air rifle meets.

Within the state of Missouri, UMR won all the first and second place trophies

in prone, standing, kneeling, and aggregate score as the team captured its fifth straight Missouri Intercollegiate Rifle Association (MIRA) championship. According to Griffin, the wins also completed the fifth year that the UMR team has been undefeated in Missouri.

During the tournaments throughout the season, individual scores increased and as a team, the Miners surpassed last year's place finishes.

UMR competed against the top teams in the nation at the Murray State Invitational where they shot their best team score of 4318 of a possible 4800 points.

The increased practice time for air rifle paid off as Brent Anderson received an invitation to try out for the U.S. Shooting Team. To qualify for this

honor, Brent shot a 361 in standing air rifle to be chosen as one of 180 shooters to try out for the team.

Anderson beat Bane Kroger as the top aggregate shooter in the MIRA by 6/10 of a point. This emphasizes the competition within the team as well as against other schools.

Paul Luebke was voted the MVP. Paul was consistent with a 533.8 point average and helped with the off-campus shooting programs.

Next year the top four shooters will be returning and as Coach Griffin says, "We will be in the top 20 next year."

Photos by H. Gaber

Prone to success. Bane Kroger shot a 542.6 average during the season to put him as the number two shooter for UMR.

Aiming for a victory. Brent Anderson surveys his target. Brent was one of 180 shooters invited to try out for the U.S. Shooting Team.

Give blood; play

Rugby

Photos by E. Ward

The Pandemonium continues as an opposing team member is mauled by the UMR men.

Maintaining coverage of the ball, a UMR player is stopped by an opponent as reinforcements come in from all sides.

It's anyone's guess as the ball goes up for grabs. UMR's Rugby team experienced a winning season in the winter semester, holding a 7-1 record, including a victory in the Missouri Union Championship for the third time in four years in a match-up against Columbia. Earlier in the fall, the team had a 7-7 record.

Facing off against his opponent, Scott Carney looks for an open team member.

Getting a face full of water, Rick Strong struggles against an opposing team member.

With some interference, Rich Berger passes the ball up the pool. A solid 11-3 record was achieved by the 86-87 Water Polo Team in competition against Division I schools. Among their victories, UMR's men were champions of the University of Illinois Tournament.

Strong despite
graduation losses,
the Miners were

Determined to repeat

Before the 1986-87 swimming and diving season began, no one expected much of a team that had lost an outstanding senior class and still had to face a formidable season. After losing every national point to graduation, the Miners started the season looking at a very difficult task of qualifying people for nationals. So going into the UMSL opener no one, except for the swimmers and Coach Mark Mullin knew what to expect. All were in for a shock.

The Miners defeated the UMSL swimmers, 102-52. UMR continued their winning ways and finished the season with a record of 8-1. The only loss was a close decision at Drury. In addition to their impressive record, the Miners finished first at the Midwest Independent Swimming Championships held at Kirksville. During the championship meet, Martin Rodseth

was honored by being voted the Most Outstanding Swimmer.

The Miners qualified six for nationals and finished up the season with a 16th place finish at the NCAA Division II Nationals in Long Beach, Ca. The qualifiers for this meet were senior co-captains Danny Mattle and Martin Rodseth, juniors Kurt Koelling and Steve Goodell, and sophomores Travis Scott and Joe Lundeen.

Individual highlights included two finishes at nationals. Goodell placed seventh overall in the 1650 freestyle and Scott finished seventh overall in one meter diving.

UMR started the season with a number of freshmen who continued to improve throughout the year. Bob Phillips and A.J. Ferraro were two of those freshmen who started out as marginal swimmers, but soon devel-

oped into a viable part of the team. Bob finished third and A.J. placed fifth at the Midwest Championship in the 1650 freestyle.

The Miners also had three swimmers achieve Academic All-American status. They were Martin Rodseth, Danny Mattle, and Joe Lundeen. To qualify for the award, they had to make it to nationals and have a 3.5 GPA or better.

"The key to the season was the fact that the entire team were racers. They were competitors and enjoyed the competition. If we were in a close race, 90 percent of the time we finished on top. They elevated their performance when it came down to the last few seconds of the race," said Coach Mullin.

Eric Wiegand (60) and Keenan Curry (32) open up a hole for runningback Tom Reed (24) in a game against Grand Valley.

Rolla Daily News

Eric Wiegand, star offensive lineman for the University of Missouri-Rolla football Miners, agreed to a free agent contract with the Atlanta Falcons of the National Football League.

Wiegand, a 6-2, 265-pound guard, was the only player in the history of the Missouri Intercollegiate Athletic Association to earn first-team all-league honors four consecutive season. The St. Peters, Mo., native expects to be used by the Falcons at the center position.

"I'm obviously thrilled to be getting the chance to try and compete in the NFL," Wiegand said. "With Jeff Van Note retiring, Atlanta thought my

quickness could best be utilized at the center spot."

Quickness has long been Wiegand's strong suit, and that aspect of his game impressed Atlanta Falcon offensive coordinator Jim Hanifan during a recent tryout.

"I ran about a 4.67 40-yard dash and then did it again," Wiegand said. "Hanifan thought he had measured the distance off wrong, took the time to re-measure and then I did the same basic time again. After that, I think he was pretty interested."

Wiegand flew to Washington, D.C., earlier for a tryout with the Redskins and also had been in contact with Larry Wilson of the St. Louis Cardinal football team.

"Atlanta made me the best offer, however, and I was really impressed with Hanifan's enthusiasm and attitude as a line coach," Wiegand said. "He seemed to believe I could do a good job as a center."

Wiegand flew to Atlanta to sign the contract in early May and played in the Falcon mini-camp.

"It is a dream come true to even get this opportunity," Wiegand said. "If wanting to and working hard has anything to do with making it, I think I have a heck of a chance."

-Gene Green

UMR Sports Information Director

Rolla Daily News

Dale Martin was named head basketball coach as Billy Key retires.

Billy Key, head basketball coach at the University of Missouri-Rolla since 1964, has announced his retirement from coaching. Key will continue to serve UMR as athletic director, a position he has held since 1968.

Key also announced the appointment of Miner assistant coach Dale Martin to the head coaching post. Martin, Key's assistant since 1980, previously coached at Central Missouri State.

"After 37 years of coaching, 30 at the collegiate level, I really felt the time was right for me to step aside," Key said. "I have every confidence that Dale will do a tremendous job with the program."

Key won 387 collegiate games, placing him seventh on the all-time NCAA Division II list among coaches active through the 1986-87 season. Counting high school competitions, Key took teams to victory in 542 games.

During Key's coaching career he has served as president of the National Association of Basketball Coaches, served as a member of the Basketball Hall-of-Fame Board of Di-

rectors, has coached a team in the National Sports Festival Games and conducted a series of clinics in Brazil through the Partners of the American program.

Key said he will miss working directly with the student-athletes at UMR but stressed he felt the time was right to retire from coaching.

During Key's career with the Miners, UMR twice qualified for NCAA Regional Tournament play. His 1975-76 team captured the only MIAA basketball championship in Miner history.

"Coaching basketball has been an enjoyable career for me," Key said. "It has afforded me and my family many opportunities we wouldn't have had otherwise."

"It has been a real privilege to coach at this university for 23 years, and I appreciate the support of the UMR administration, faculty, staff, students and community over those years."

-Gene Green

Talking it over. Dale Martin gives the team some helpful hints. Dale will be taking over as the new head basketball coach.

The Lady Miners may have faced a season of competition and youth, but they were also

Gaining strength

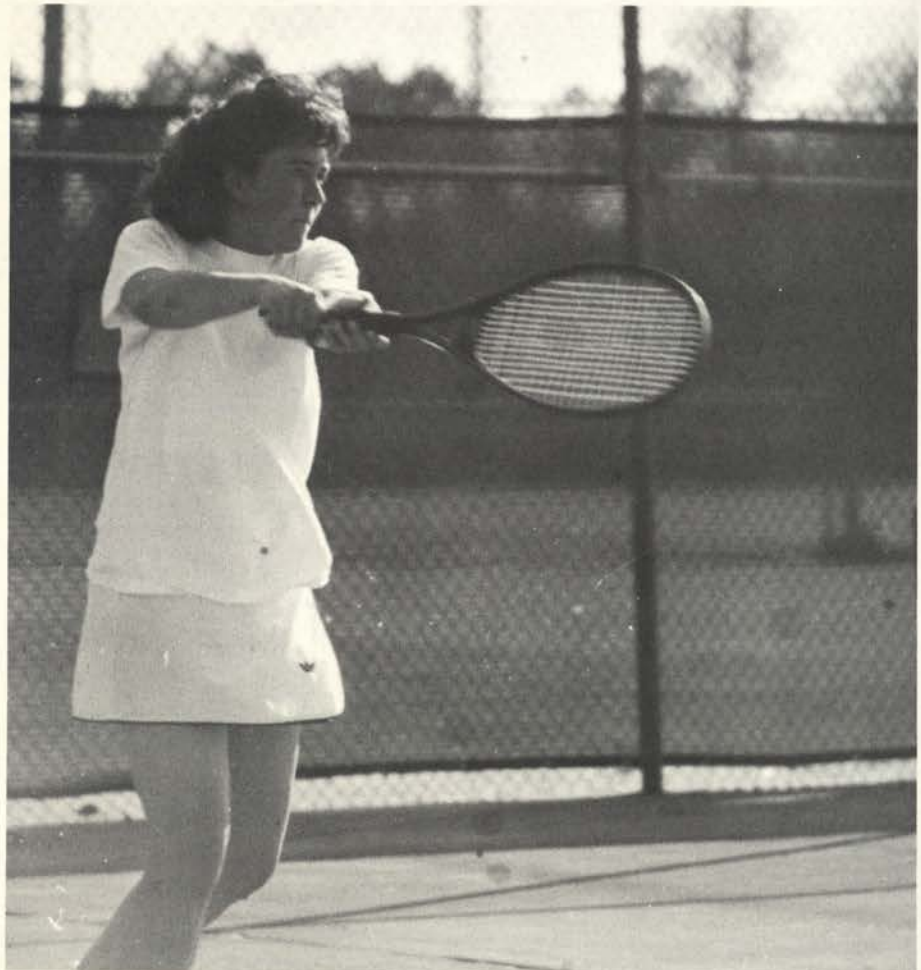

The Lady Miners' 1987 tennis team developed from four returning players and three first year netters. Throughout the season, the Miners faced a strong conference dominated by Northwest and Lincoln. All-in-all, Rolla did not fare well against their spring opponents as they finished the season 1-12.

Coach Sarah Preston felt that the Miners played as well as they could within the conference and that they had made progress throughout the season. "The last four places were quite close point-wise. We were never really out of it," said Preston, noting how difficult it is to be one of the top teams in the conference.

UMR hosted the MIAA Conference Tournament at the Racquet and Country Club at the Lodge of the Four Seasons. The Lady Miners played well as a team and ended with a sixth place finish. Individual performances highlighted the tournament. The Sportsmanship Award for the conference went to Lady Miner, Liz Haning. Haning also took second in the #1 singles, while Evelyn Sweet placed fourth at #2 singles, and Renee Lloyd finished fourth at #6 singles.

During the season, the Miners put out a lot of effort but were lacking the experience needed to be a competitor in such a strong conference. With this year's experience behind them, the Lady Miners are looking forward to next season.

The youth and inexperience of the Miner men made for a season of

Hills and volleys

The men's tennis team could have been categorized as youthful and inexperienced. Although their season was not exceptional, their performance was commendable. UMR's youth was evident in the fact that of the eleven member team, there were only three returning starters; Randy Behm, Marty Elbl, and Karl Lewin.

"Since we don't have an indoor court, we don't begin practicing until late February or early March. This puts us at a disadvantage to other teams who begin practices in December. For that reason we have to play a difficult schedule quickly. We need to get in a lot of tough competitions early to prepare us for our conference matches," said Coach Paul McNally.

Facing a difficult schedule ahead of them, the Miners began on-the-

court training in February and a seed ranking was determined. Mark Medley became the number one seed, followed in order by: Brian Berkstresser, Marty Elbl, Ed Suranunt, Karl Lewin and Randy Behm.

Even though the Miner's 4-9 record was a little less than desirable, UMR played their best tennis at the tail end of the season at the MIAA Conference Tournament. The Miners finished fourth in the tournament, an achievement that left McNally pleased.

Two UMR players did well at the conference. Mark Medley finished fourth in the first flight and freshman Brian Berkstresser placed fourth in the second flight.

Highlighting the season was the men's victory over Drake University, 6-3. "Anytime you can defeat a Division

I school, it's especially rewarding," said McNally.

There were two disappointments of the season, both within the University of Missouri system. The first came when the men's team was unable to play Columbia, and Kansas City. The Miners were looking forward to playing within the system to see how they could compete. The second disappointment came against St. Louis. Both matches against UMSL ended in their favor, defeating Rolla, 0-9 and 2-7. The Miners had hoped to do better against the conference foe.

With another year of experience behind them, the returning players hope to be even stronger next year.

Increasing their number of wins had the Lady Miners showing a

Marked improvement

The Lady Miners weren't able to break any records this season but they were still successful. They were able to chalk up more wins than any Miner softball team has in recent years as they finished their regular season, 8-15.

The UMR women took advantage of their spring training in Florida to work on their fundamentals as they played an eight game schedule. The Miners looked impressive on the field as they defeated Kishwaukee College, the University of West Florida, and Geneva College. UMR headed back to Missouri with a 5-3 record and were looking to be a strong contender within the conference.

The Lady Miners didn't come on as strong as they had hoped during the season as they lost five of their first six games. "Our hitting was disappointing. It wasn't what we expected it to be," said Coach Cindy Maulin. "We had a hard time getting the hits we needed to capitalize on our people on base."

The Miners also had a successful conference season as they finished 6-10. Last year Lincoln University was the only conference foe UMR could defeat. This year the Miners were also able to beat Northeast Missouri once and Central Missouri twice. Central went on to win the conference.

The bright spot for the season was found on the mound. UMR had four pitchers; Lisa Korba, Kristy Weber, Melissa Krolak, and Dawn Tabor who shared the pitching duties. "We had very sound pitching. I was confident of their abilities to use different pitches. Our pitching was comparable with other teams within the conference," said Maulin. Sophomore Lisa Korba and Freshman Kristy Weber took respon-

sibility for the majority of the games throughout the season.

Korba's effort on the mound and in the outfield led to her receiving Second Team All-Conference honors. Weber was chosen as Freshman of the Year for her hitting and her work as a pitcher. All-Conference Honorable Mention honors went to Rene Polowy for second base, Nancy Wehmeyer in centerfield, and Angie Honse as catcher.

Next year the Lady Miners will be returning 11 players and they hope to continue improving on their win-loss record. However, the Miners will be losing their coach of four years, Cindy Maulin. UMR's new softball coach will be leading a talented group with high goals.

Finishing second in their division proved the Miners had

The right stuff

With a fine mixture of skill, experience, and talent, UMR's baseball team was destined to be a competitive force. The Miners returned nearly all their key players from last year, including several top hitters.

The UMR baseball team came off a 6-25 1986 campaign, going into this season's opener against Southwest Christian University during their spring trip to Texas. The Miners were behind 6-2 in the last inning against Southwest Christian, and were able to rally in the ninth and win the game 7-6. "That game set the tone for the entire season," said Coach Jerry Maulin. The Miners gained valuable practice time and finished 3-1 while in Texas.

"The season as a whole, there were no disappointments. We had a

great season and I am really proud of the team," Maulin said. The Miners finished the season with an impressive 15-9 record during the regular season, and 7-5 in league play.

UMR gained the respect of other schools as they placed seven players on All-MIAA teams. Sophomores Bret Voypick and Dan Daily were named to the MIAA All-Conference First-Team. Third-baseman Voypick led the Miners in total bases, hits and runs scored as he hit .364 this season. Centerfielder Daily hit a team-leading .381, pacing the team in hits, triples, stolen bases and sacrifices.

Second-Team honors went to senior catcher John Viehmann. Viehmann hit .341 this season with a team-high 26 RBI's and eight doubles.

Named to the MIAA honorable mention team for UMR were pitchers Alan James and Aaron Epperly, short-stop Greg Brummer and outfielder Andy Reintz.

Miner coach Jerry Maulin, was named MIAA co-Coach-of-the-Year with Southeast Missouri head coach Palmer Muench. The Indians captured the MIAA Southern Division title, edging out the Miners. SEMO went on to win the conference tournament.

Losing only John Viehmann to graduation, the Miners hope to be number one in the conference next year.

Bogeys, birdies, pars, putts, It's all

Golf talk

Talk in a pro shop usually tends to be a little one sided. From bogeys to birdies to pars to putts to chips to pulls to Webster's Dictionary. In applicable terms, the UMR golf team was about one over par for the season. According to third-year golfer Daniel Wright, the season was "not anything too terrific," however it did include some strong team efforts and personal victories.

For the first time ever, a fall season was included on the itinerary with two tournaments scheduled, the Wil-

liam Jewell Tournament and Joplin Tournament hosted by Missouri Southern. In both cases, the team finished in the "middle of the pack", a position which carried through to the regular spring season. The team settled into its six-tournament schedule for an exhibition-type match in Hot Springs, Arkansas. Winding up 4th in the conference, the men's highlight came in UMR's own Best Ball Tournament, in which the team came in second place by a loss in sudden death on the second hole.

Several personal victories were enjoyed by MVP Barry Craig, including winning the Riverman Classic hosted by UMSL. With a score of 73, Barry won by sudden death on the third hole. The victory also earned him the MIAA Player of the Week honor. Shawn King joined Barry as graduating lettermen, while four players will be returning next year: Daniel Wright, Jeff Leonard, Bob O'Connell, and Gray Branson. Reflecting upon this season as average, team members expressed looking forward to a big improvement next year.

UMR's young Track and Field team showing signs of

Sprinting ahead

Coach Dewey Allgood has plenty of reasons to be proud of his young Track and Field team. Though they placed 5th in the conference for the season, that is not such a bad standing for such a young group of athletes. This year's team was composed predominantly of freshmen and sophomores, lacking the leadership of graduating seniors. Despite obstacles on and off the field, some talented runners gave outstanding performances.

As a team, the outdoor season was highlighted by their first meet, which was against SMSU and School of the Ozarks. The Miners won the meet totalling 90 points for the day, while both opposing schools scored at

most half that number of points.

Individually, several team members made superior efforts during the season, including standouts Pat Short and Tim Swinfard. Short racked up the highest number of points, an impressive 46 points. Other track and field performers deserving mention include Kurt Daniels, for his winning of the high jump and high hurdles in the meet against SMSU and School of the Ozarks.

Coach Allgood reflected, "With these new people, we expect to be very competitive next year. Overall, I'd say we competed quite well for a young team."

Knowing the inside scoop on the players and coaches for the varsity sports at UMR is what being the sports information director is all about. Gene Green finished his eighth season with the Miners this year. His duties include publicizing UMR sporting events and athletes, compiling all statistics and editing all guides and programs relating to UMR athletics.

A graduate of Southern Illinois University at Carbondale, Green is a member of the College Sports Information Directors of America. He was a sports editor on the daily newspaper level for four years before entering the public information field, winning writing awards in Illinois and Missouri.

Green also serves as color commentator on Miner radio broadcasts in UMR football and basketball away games heard on KTTR, "Voice of the Miners." Gene has been instrumental in supplying information to the community, alumni and other schools of UMR's athletic programs.

Getting into the game, the Marching Miners cheer on the football team during a home game. The Marching Miners perform at halftime and cheer on the team throughout the game.

Mimi-Mag

Freshman Engineering

A new program began in the fall to aid freshman as they entered UMR. The Freshman Engineering program was designed to enhance the advising and career counseling to enable the beginning student to make better decisions in choosing an engineering major. Students take courses common to all engineering disciplines before admission to the department of their choice.

Dr. D. Ronald Fannin, UM-Rolla associate dean of engineering and professor of electrical engineering directed the program with Dr. C. Dale Elifrits, associate professor of geological engineering as the associate director.

GTA Workshop

In response to Senate Bill 602 signed by Governor Ashcroft in June, 1986, which requires all state colleges and universities in Missouri to assess International student teaching assistants, the University of Missouri-Rolla developed the Instructional Communication Workshop for graduate teaching assistants.

The workshop focused on improving classroom communication skills. Participants were assessed in two areas. First was their English competence both in lectures and interpersonal situations. Second was their presentation competence by evaluating the individuals ability to choose, organize and deliver ideas and information.

The workshop was two weeks in the fall and was shortened to one week in the spring. The participants attend lectures and workshops where they can practice their communication skills with their fellow GTA's.

After the workshop has been completed each participant goes through a four-part 20-minute assessment. The first part is an impromptu interview about the individuals background. The second is a 10-minute lecture suitable for a typical undergraduate class. The third is a role playing situation in which the participant is asked to explain something to the class or to make an announcement. In the fourth part the participant answers six questions a student might ask.

The workshop has resulted in more effective teaching by GTA's and better communication between the GTA's and their students.

Miner Issues

UMR has been labeled by many as a campus of apathetic students. Students at UMR often are so busy with the issues of calculus, physics and their senior design project that they don't have time to worry about the "trivial" issues of everyday politics and issues that effect the quality of life at UMR. However, occasionally a spark of controversy in the letters to the editor section of the Miner will get the student's attention. Some of the hot issues this year were:

Lolita - A student was assigned the book Lolita to read for English 106 and wrote the editor protesting the pornographic nature of the book.

Pornographic photos - Pictures of the Chippendale's party at Sigma Chi and of the Sexy Legs contest at St. Pat's were considered by some as pornographic and led to several letters to the editor.

Christie Brinkley's Birthday - Jeff, a UMR student, wrote the editor suggesting a new holiday, Christie Brinkley's Birthday, be celebrated in order to even out the number of "white holidays" to the number of "black holidays."

John Brown Manhunt

UMR students returned from Spring Break to find Rolla in the center of the largest manhunt in recent Missouri history. Earlier in the week, John David Brown had become a suspect in the wounding of a Rolla police officer at a local motel and in the slaying of a church volunteer at a Doolittle church. By the time students arrived back in town there were 10 FBI agents and 70 members of the National Guard Military Police in Rolla to aid the Missouri Highway Patrol in the manhunt.

As the search entered the third week there were four SERT (Special Emergency Response Teams) involved in the manhunt along with the Rolla Police Department, Phelps County Sheriff's Department, Missouri State Highway Patrol, Missouri Water Patrol, tracking dogs from Illinois, Missouri Department of Corrections tracking dogs and FBI, as well as the Missouri National Guard Military Police on the weekends. Rolla Police Chief Stan Spadoni estimated in a 24 hour period there were as many as 110 to 115 persons involved in the manhunt.

Waiting for practice, Liz Haning takes advantage of some spare time to do a little studying. Liz was active in varsity sports all year 'round, as she ran cross country, played basketball, tennis and was able to maintain a 4.0.

Britt Braswell

ALL-ACADEMIC TEAM: Jeff Balmer, Julie Board, John Borthwick, Don Brumm, John Dalton, Curt Elmore, Liz Haning, Brad Haug, Tim Hudwalker, Pat Kaufman, Shawn King, Steve McVey, Dave Moellenhoff, Jim Pfeiffer, Tom Reed, Gregg Vetter, Dan Wright.

Miners dominate 1986 MIAA

All-Academic Team

When the word "jock" is used to describe a person, one immediately visions a person with lots of athletic talent but very little brains. But at UMR, this jock stereotype just doesn't fit the typical varsity athlete.

The students of UMR come to this campus for the education, not for the athletic programs. For those students who do play a varsity sport, it's just icing on the cake.

Many athletes never fail a course, never withdraw from one, and graduate with honors. They just aren't jocks who can't make it in a technical school.

Athletics and academics have always gone hand-in-hand at UMR and 1986 produced a banner season for Miner student-athletes on the MIAA All-Academic Squad. Students from within the conference are selected through the commissioner's office, strictly on their grade point. Fifteen of the top 30 male scholar-athletes in the MIAA were from UMR, while two of the top 20 female scholar-athletes were also from this campus.

Using the word "jock" has taken on a whole new meaning at UMR; a person who can excell both in the classroom and on the playing field.

Britt Braswell

Tim Schoenecker

Miner football players held their own as six members the gridiron team were selected to the All-Academic Squad.

Jeff Balmer (yellow) encounters the water obstacle in a track meet at Central Missouri. Jeff was also honored as a scholar-athlete.

Jischke pledges energy, loyalty and enthusiasm to make UMR a university of Great distinction

If you had asked a UMR student a few years ago about the chancellor you would have more than likely got responses such as: The what?; Oh, the guy over in Parker Hall.; or Isn't he the one that lives in the big house on the corner of campus?

However, that has changed with the appearance of UMR's new chancellor, Martin C. Jischke. The chancellor has made himself very visible to students as well as the faculty and alumni. He started the fall semester with an Old Fashioned Ice Cream Social on the mall near the hockey puck.

Ice cream was served not by the professional food service, but by the chancellor and school deans giving everyone an opportunity to meet the chancellor.

In September Dr. Jischke began his monthly "brown bag lunches." Everyone was invited to bring their own sack lunch and the University provided beverages. This gave him a chance to chat informally with the students, faculty, staff, alumni and anyone interested in the university.

The chancellor also kept in touch with the students by writing a monthly letter to the Miner discussing issues of interest.

Dr. Jischke has been at UMR for one short year, but he has already made a lasting impression as a chancellor who cares about the students as well as the faculty and alumni.

M. Hall

Chancellor Jischke discusses the future of UMR at his investiture in November.

A sense of humor is an important quality for the chancellor. Jischke's winning smile has been evident throughout the year.

M. Hall

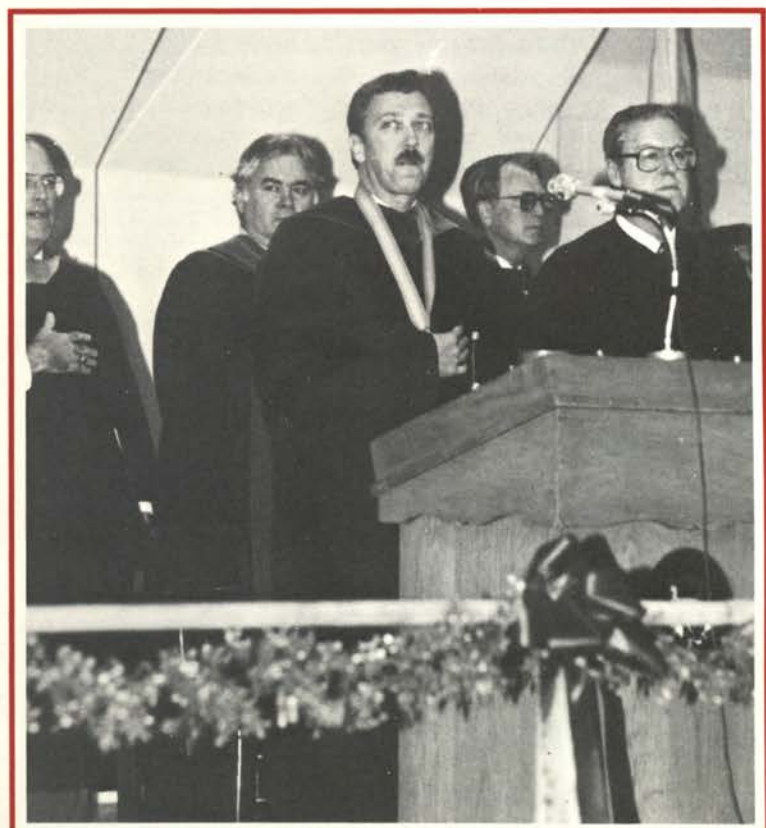

M. Broeker

Chancellor Jischke explains a key detail at one of his famous "brown bag lunches."

M. Broeker

Dr. Jischke discusses the possible opportunities for UMR to establish instructional emphasis programs in the areas of manufacturing technology and manufacturing automation with the grant received from the AT&T Foundation.

H. Gaber

Officiating at commencement ceremonies is one of Jischke's many duties as chancellor.

*Camping out and priority
signups are soon to be*

Things of the past

Interviewing is a major part of career planning at the University of Missouri-Rolla (UMR). Over 300 companies interviewed on campus last year, and 132 companies interviewed on campus in the fall. There were 323 schedules this fall, and 4264 interviews took place, and 6291 students were listed as back-ups.

Although these figures are impressive, UMR does have a problem with interview sign-ups. The current method for interview sign-ups is that a company announces a "position" and provides the job description and requirements. It is then advertised in the placement office and student publications (*Miner*). On a specified sign-up date, students stand in line to register for a possible interview with the company. However, some companies are more popular than others, and many times students must camp outside the placement office all night in order to register on the schedule. Many times, even after camping out, students are still unable to sign up for an interview spot, or even a back-up spot. To combat this problem, Profes-

sor Remington developed a new system for UMR, which will go into effect in the Fall of 1987. Professor Remington conducted an investigation on interview sign-up methods of similar universities (Georgia Tech, Purdue, etc.), those that have strong engineering curriculums. The results of the investigation were that the most common way of setting up interviews on campuses is prescreening by companies. This method will eliminate the "camping out" problem.

There will be an announcement of which companies are coming to UMR, and previous to their visit, there will be a designated date to turn in resumes. No certain number of resumes will be accepted. Those resumes submitted will be forwarded to the respective company, and the company will then send a list to the placement office of those students to be interviewed, and any back-ups.

This method is currently used for co-op students and has worked very well, and Professor Remington looks forward to similar success with the permanent interview process.

Tim Stuertz reviews some last minute details as he waits to be interviewed by NASA.

Mark Broeker

Mark Broeker

Scott Higginbotham is interviewed by Manny R. Virata, Jr. from NASA.

Mark Broeker

Secretary, Christine Ruff, prepares resumes for mailing, which will become even more important in the fall.

Keith Rowe

The long nights of camping outside the Beuhler building will only be pleasant memories when the new system becomes a reality.

Mark Broeker

Mark Broeker

Tom Goebel receives help with his resume from Dr. Burton. The resume will become the key to interview sign-ups in the fall to prevent the "camping out" syndrome.

Uplinks, downlinks and land line network unite the University of Missouri in the Technological Age

The University of Missouri-Rolla was fortunate enough to be one of the eight universities to receive an NTIA grant in 1986 for partial funding of an uplink. Scientific Atlanta installed the uplink and had it in operating condition by November 17, 1986.

Throughout December, 1986 there were three teleconferences to test and demonstrate the operating capabilities of the system. Three courses were uplinked through the National Technological University in the spring semester to 26 sites throughout the United States.

The University of Missouri has recently completed a land line network made up of microwave and fiber optics. This system ties the entire Univer-

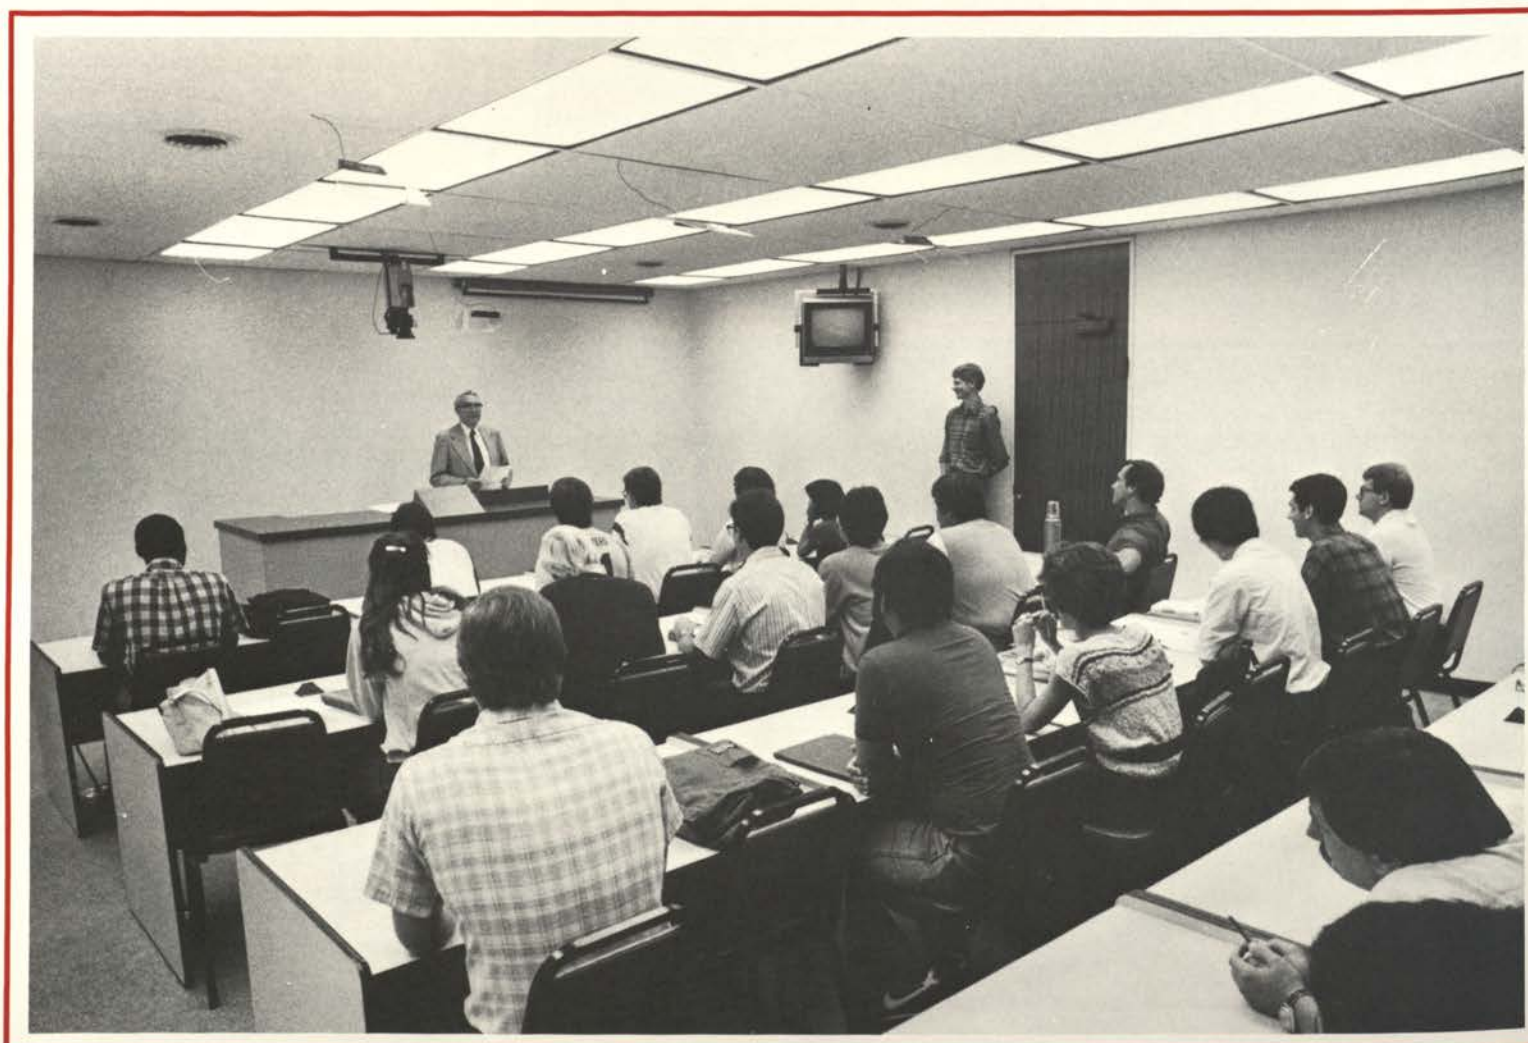

sity System together for the first time. The uplink serves a very useful purpose in conjunction with the land line network in that we can now take credit courses, or short courses, from any campus and bring them to Rolla and uplink them for distribution throughout the state of Missouri or the nation.

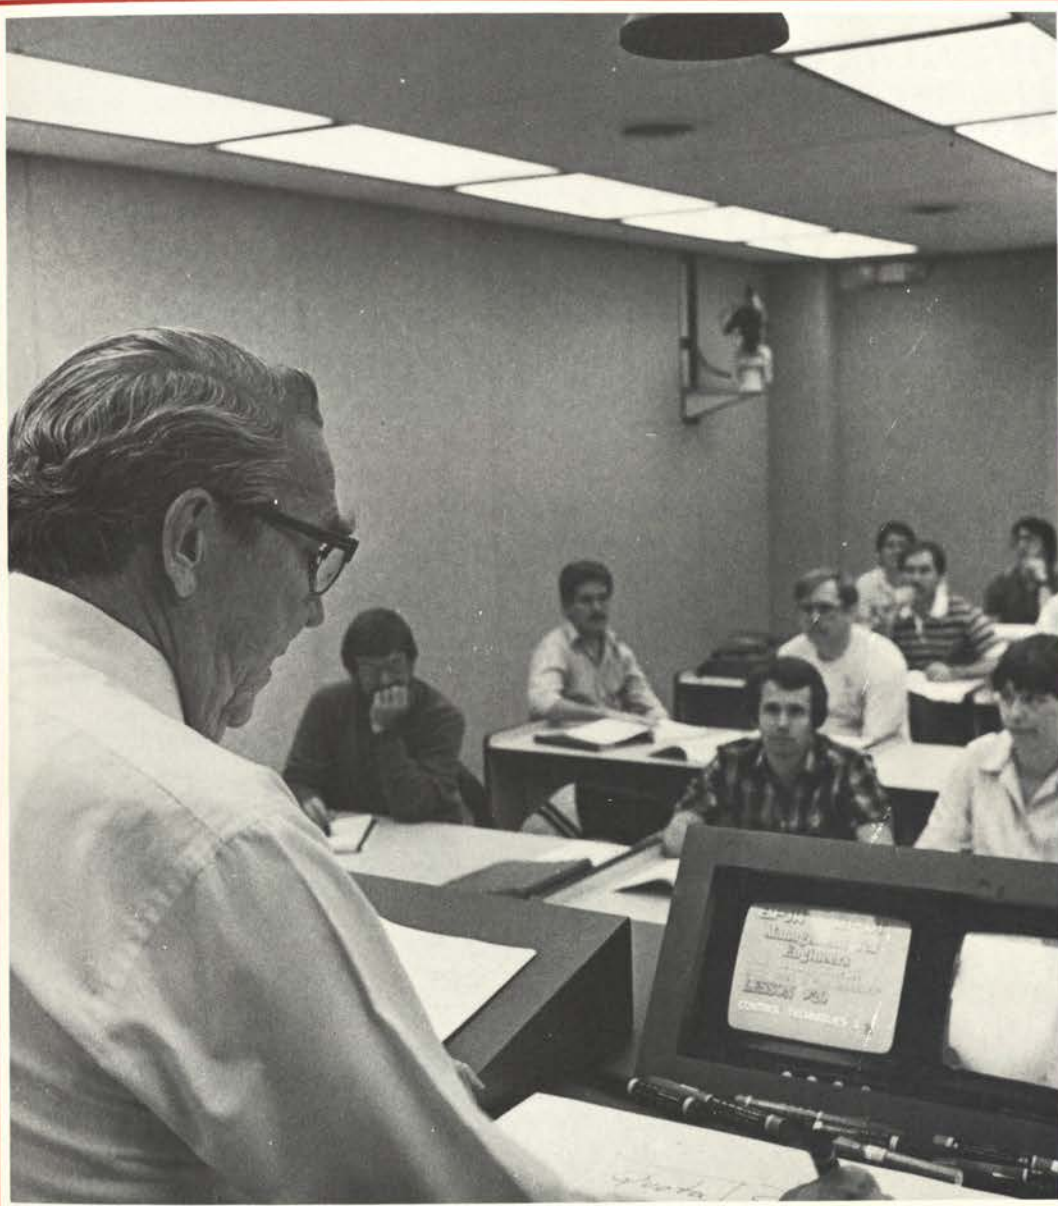

Another even more exciting opportunity will be working with the Missouri School Board Association and the Department of Elementary and Secondary Education. They are planning to have 200 downlinks throughout the state of Missouri by this fall.

The MSBE and DESE plan on working with UMR to provide programming from the various campuses of the University of Missouri. With the

land line network UMR can bring in programs to Rolla and uplink them for distribution through the 200 downlinks. It is the intent of the MSBA and the DESE to provide enrichment to the school systems by this means. For UMR this is an excellent opportunity to transmit programs to small businesses throughout the state of Missouri.

The uplink has opened many doors for the University System and will no doubt provide excellent opportunities to reach remote areas of the state of Missouri and allow the University of Missouri to be of service to a greater number of the states residents.

Professor Bernie Sarchet, Director of the Video Communications Center, taught one of the first courses to be uplinked with the new equipment.

The uplink is located on the roof of the Curtis Wilson Laws library.

There are many advantages as well as disadvantages associated with

Living off campus

After a couple of years living on campus with all the rules and regulations many students feel that they are ready to live out on their own and take the responsibilities and opportunities associated with it.

Many students like the privacy of not having to share a small cubicle with someone else and sharing a bath-

room. Now they would have the chance to spread their things out and add their own personal touch to their decor. They can also keep their rooms the way they want without having to listen to roommates complaining about the way they keep their things.

Living off campus is also a time for accepting responsibilities. It requires

paying bills on time or taking the consequences for not.

Another plus of living off campus is the opportunity to have home cooked meals. This means being able to prepare your favorite foods and no more all purpose patties.

Lori Dubin

There are several advantages of living off campus for example living in the A frames and the beautiful scenery.

Tim Ritter

Barry Craig and Daniel Wright try out their new fishing poles in the Towne and Campus pool.

Mark Broeker

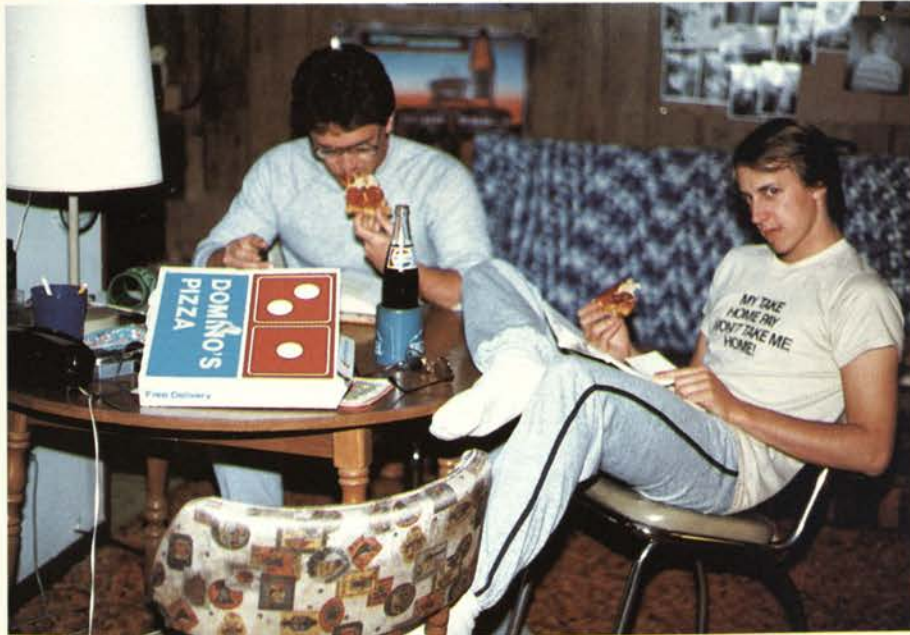

Starting the summer off with a tan seems to be important to Duane Symes and Michelle Davis.

Halloween parties bring out the best in everyone, even in the Slut Puppy.

Those who choose not to live on campus, have more freedoms since they don't have anyone watching over them. Their time is their own. This

gives students a chance to learn things that college can't teach. It is an excellent opportunity to prove that they are responsible individuals.

Joe Ernst and Mark Broeker felt they didn't have time to waste during finals week and found that fast food is just as good.

When in Rolla, many cultural traditions are studied as in the theme party "Rolla goes Hawaiian."

Mark Broeker

Enjoying the weather, Aron Gaus does a good job of catching the frisbee.

Maria Dignam and Sharon Wingron toast to a successful year completed as roommates.

After seven years as Dean of Students, Dean Robertson **Returns to teaching**

After many years of dedicated service as Dean of Students, Dr. B. Ken Robertson will be moving next fall to the chemistry department. The position of Dean of Students, along with several others, will be replaced in the fall by a Vice-Chancellor of Student Affairs. The Vice-Chancellor of Student Affairs will take on a broad range of responsibilities.

Dr. Robertson began at UMR in 1965 as a chemistry professor teaching in the areas of physical and analytical chemistry. In 1979 he was appointed Dean of students. As Dean of Students, Dr. Robertson has seen the growth of the student services in many areas. These changes are evident in many of the programs that have developed in the various student service offices.

The Counseling and Testing Center has developed workshops to help student groups in areas such as communication skills, career development and personal wellness. Also directed by the Counseling and Testing Center is the Summer Orientation program. This program brings parents and students to campus for a two-day session in the month of June. The students are tested, academically placed, and registered. Both students and parents are introduced to the campus and its services via parallel orientation programs.

The Student Financial Aid office has become fully automated and is capable of processing up to 4,000 applications per year and \$8,000,000 in aid.

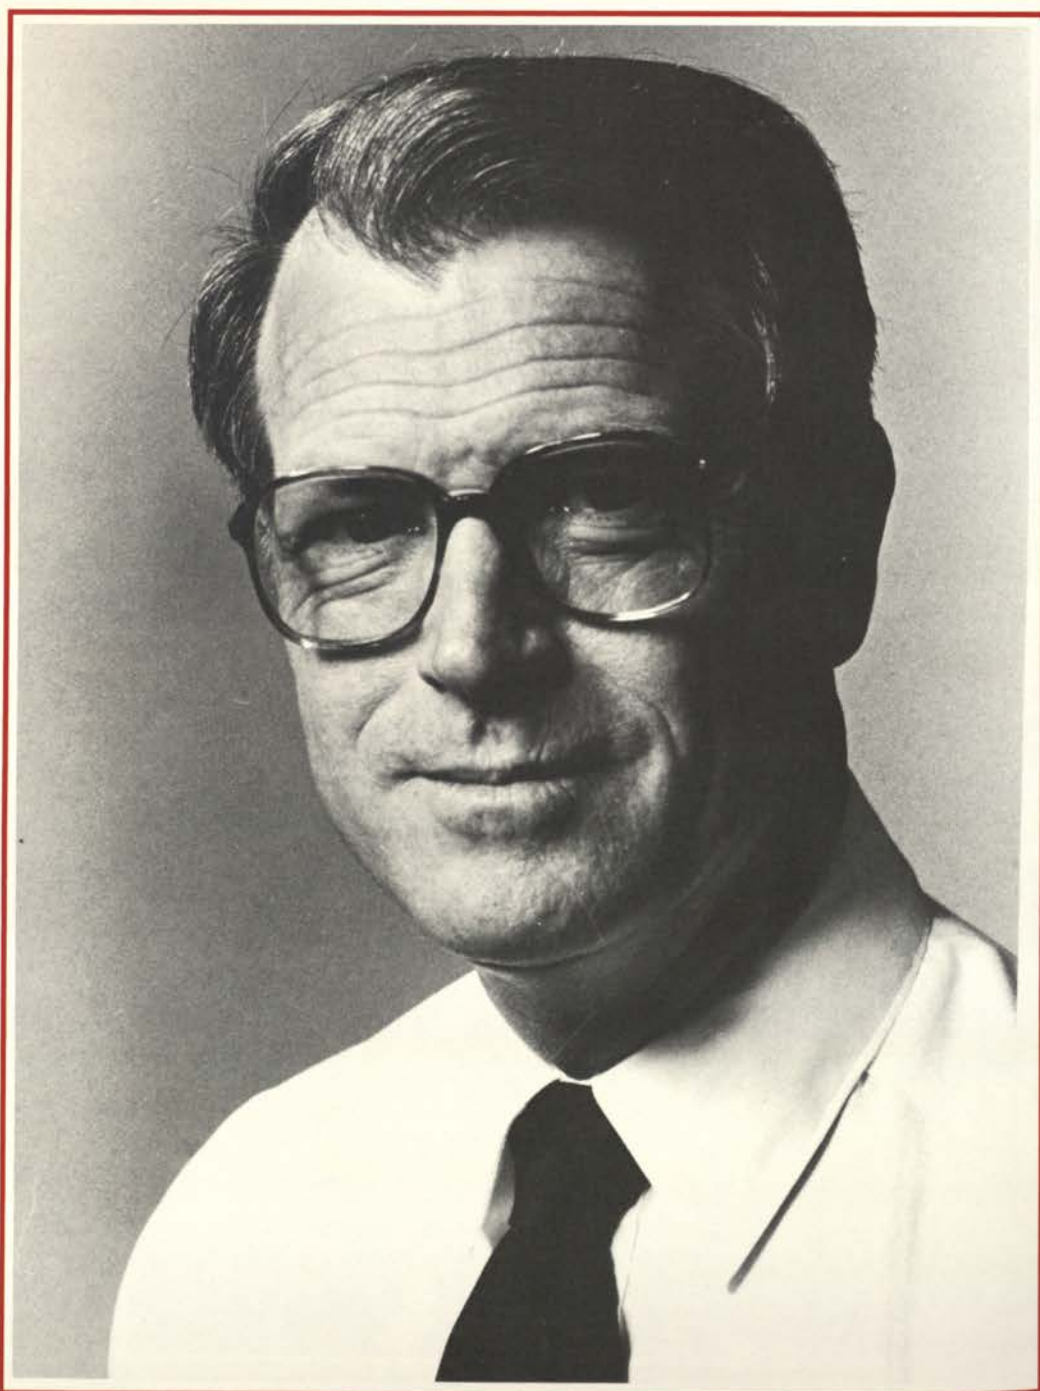

The office of Student Activities has seen notable progress particularly in the areas of hazing and the elimination of questionable pledging practices. International Students, a branch of the Student Activities office has played a key role in maintaining harmony among international students, the university and the community throughout several international crises.

The Minority Programming office is responsible for the minority Engineering Program and Women in Engineering Program. During the summer immediately prior to the freshman year, minority students are instructed for seven weeks in English, mathemat-

ics and chemistry, with all living and educational expenses provided. Throughout the year a full tutorial and counseling program is maintained, and scholarships are extended to freshman and upper-level students.

Student services on this campus has been noted for its close interaction with the student body. In the past seven years, Dean Robertson's goal has been to emphasize the delivery of

both service and respect to the students and staff. The accomplishment of this goal is quite evident to anyone visiting these offices. The extremely capable and dedicated directors and staff of student services have worked diligently and, at times quite unselfishly to make their respective offices a place where students and staff can turn to for advice and help when needed.

Dr. B. Ken Robertson, Dean of Students since 1979 will return to the chemistry department to teach in the Fall.

In the early years of his career at UMR, Dr. Robertson showed his skill at table tennis.

Dean Robertson receives a mug from the IFC at their annual banquet for being their advisor.

Relocation opens the door for A brighter future

The 1986-87 school year was a time of change for the Missouri School of Mines Chapter of Acacia Fraternity. The chapter began the year by moving from 508 W. 8th St. to a rental structure at 100 East 17th. The chapter had occupied the 508 address in 1971 and remained there until 1986, at which time the mortgage was paid off allowing the chapter to relocate.

On the move: Acacia's house at 100 E. 17th St. provided temporary housing for the fraternity.

With the sale of the old house the chapter will move to their new location at 1208 Oak St. beginning in the fall of '87. The new location is ideal for the chapter and plans are to remain there for many years.

Despite the many hours required in relocating and searching for a new house the chapter was able to concentrate on academics, the chapter's average grade point being first among all fraternities.

The main service project of the 86-87 year was a joint venture with the Rolla Masonic Lodge and the Rolla Demolay. Assisting in parking cars at the Ozark Extravaganza, over \$1600 was raised and given to local charities, helping give Acacia a strong base to build upon in future years.

By: Rodney Joel

Acacia's home since 1971, the house at 508 W. 8th St. is now the office of an insurance agent.

Move for the future: Acacia's move to 1208 Oak St. is the last for the chapter.

Freshmen scholarship fund encourages New membership

Alpha Epsilon Pi engaged in many rewarding activities this year.

Though their fall pledge class was small, it was of high caliber, carrying out AE Pi's traditional Big Bash which was a huge success. In grades, the pledge class ranked second in overall G.P.A., while the remaining chapter held a strong sixth. Along with academics, Alpha Epsilon Pi also started a freshman scholarship program to help incoming freshmen with the rising cost of school.

In the community, AE Pi's annual Meat Raffle was a large success, as well as the fraternity's community service project, which was in conjunction with the city of Rolla. On campus, AEPi became active in Greek Sing, and helped organize the first Frat Row Street Dance with Kappa Alpha, Sigma Tau Gamma, and Kappa Sigma.

To keep spring alive, the brothers were psyched to do well in the St. Pat's activities. AEPi placed 1st in the Bat Race, 2nd in the Boat Race, and 2nd in the jingle. Also, for the first time in years, the brothers built a float for the annual parade helping the chapter to place 6th

overall. Socially, the 4th annual Party on the Patio and the 10th annual Gatorfest were tremendously successful, ending the year on a very high note.

Community service

Alpha Phi Alpha has the distinction of being the first intercollegiate Greek Letter fraternity established for black college students in the United States, organized at Cornell University on December 4, 1906. The first fraternity to become racially integrated in 1945, Alpha Phi Alpha has since become the largest predominantly black fraternity in the world.

The Epsilon Psi chapter of Alpha Phi Alpha was founded on the UMR campus on April 27, 1965. During the 22 years Alpha Phi Alpha has been represented here at UMR, the brothers have helped establish the following organizations: the Association of Black Students, the Minority Engineering Program, the National Society of Black Engineers and Scientists, Gamma Alpha Delta, and this year, the chapter helped initiate a retention/recruitment program, helping and preparing minority students for their student careers at UMR with a variety of student support services. In addition to these, Alpha Phi Alpha is involved in many other campus organizations, including the Student Council, Alpha Phi Omega, the Interfraternity Council, and for the first time in years, participating in nearly all of the Greek Week activities including the fraternities first carnival booth ever, the

"Swinging Bowling Ball." Additionally, the fraternity received awards for their outstanding contribution during Black History Month.

Off campus, Alpha Phi Alpha held various fund raisers, including holding "Toll-Roads" for the United Fund where donations were collected on street corners in Rolla. Through all these accomplishments, it shows that Alpha Phi Alpha is sincerely dedicated to serving and promoting a standard of excellence for minorities on campus.

Brad Wilson, Mike Tolbert, and Thurman Bates III flank Marilyn Peebles after she became Miss Black and Gold at Alpha Phi Alpha's state convention.

The brothers of Alpha Phi Alpha took first place in the Greek Marchdown.

Moving in tune was part of the success of Alpha Phi Alpha's fall Neophyte Party.

M. Hall

Scholastics and social endeavors provide the framework for 35 years of tradition

The Eta chapter of Beta Sigma Psi, the National Lutheran fraternity here at UMR was founded on April 5, 1952, and celebrated their 35th anniversary this year. In that time, Beta Sig has become campus leaders in scholastic, athletic, and social activities.

Athletically, Beta Sigma Psi has proven to be a strong contender in many events and winning first place in intramural football. On campus, the Eta chapter proved to be even more successful. In the fall, they took first place in the homecoming parade and won the homecoming spirit award.

The spring semester was also a very busy time for Beta Sig, with a lot of hard work paying off handsomely. They took second place with their cudgel, and a third place overall finish in the St. Pat's competition. The brothers also hosted the annual Theta Tau Omega pre-St. Pat's party with the proceeds going to Theta Tau's Ugly Man fund. In addition to this, Beta Sigma Psi was also the location of many activities and parties during Greek Week.

Located on fraternity row, 1986-1987 was just another successful year in Beta Sig's 35 year tradition of bringing out their best in any form of competition.

New family for Delta Sigma Phi due to Reorganization

1986-87 was a year of great change for the brothers of Delta Sigma Phi. The fraternity underwent a major reorganization under the guidance of their national fraternity representatives, who undertook the task of recruiting new members.

Though this recruitment occupied much of the chapters time throughout the year, it was successful with the initiation of 30 new brothers, 22 of which are varsity athletes, guaranteeing the house's commitment and spirit for years to come.

Mortgate burning completes a Landmark year

This year was very special to the members of Delta Tau Delta Fraternity. The Fall '86 semester marked their 20th Anniversary and the final payment on the mortgage of their eight acre plot of land and their ranch-style house.

Homecoming '86 served a two-fold purpose for the Delts this year. As usual, it was a time for alumni to return to their home away from home. More importantly though, this year was also the time to cele-

brate Delta' Tau's 20th Anniversary. In addition to the usual Homecoming events, the chapter held a mortgage burning banquet, spoken to by Bob Croning, who helped initiate the chapter twenty years ago. Other guests included a myriad of alumni some of which were charter members.

All in all, this year's Homecoming was extra special for the Delts and a landmark in their history.

B. Braswell

Delta Tau Delta's Homecoming Banquet was the perfect time to celebrate the fraternity's 20th anniversary.

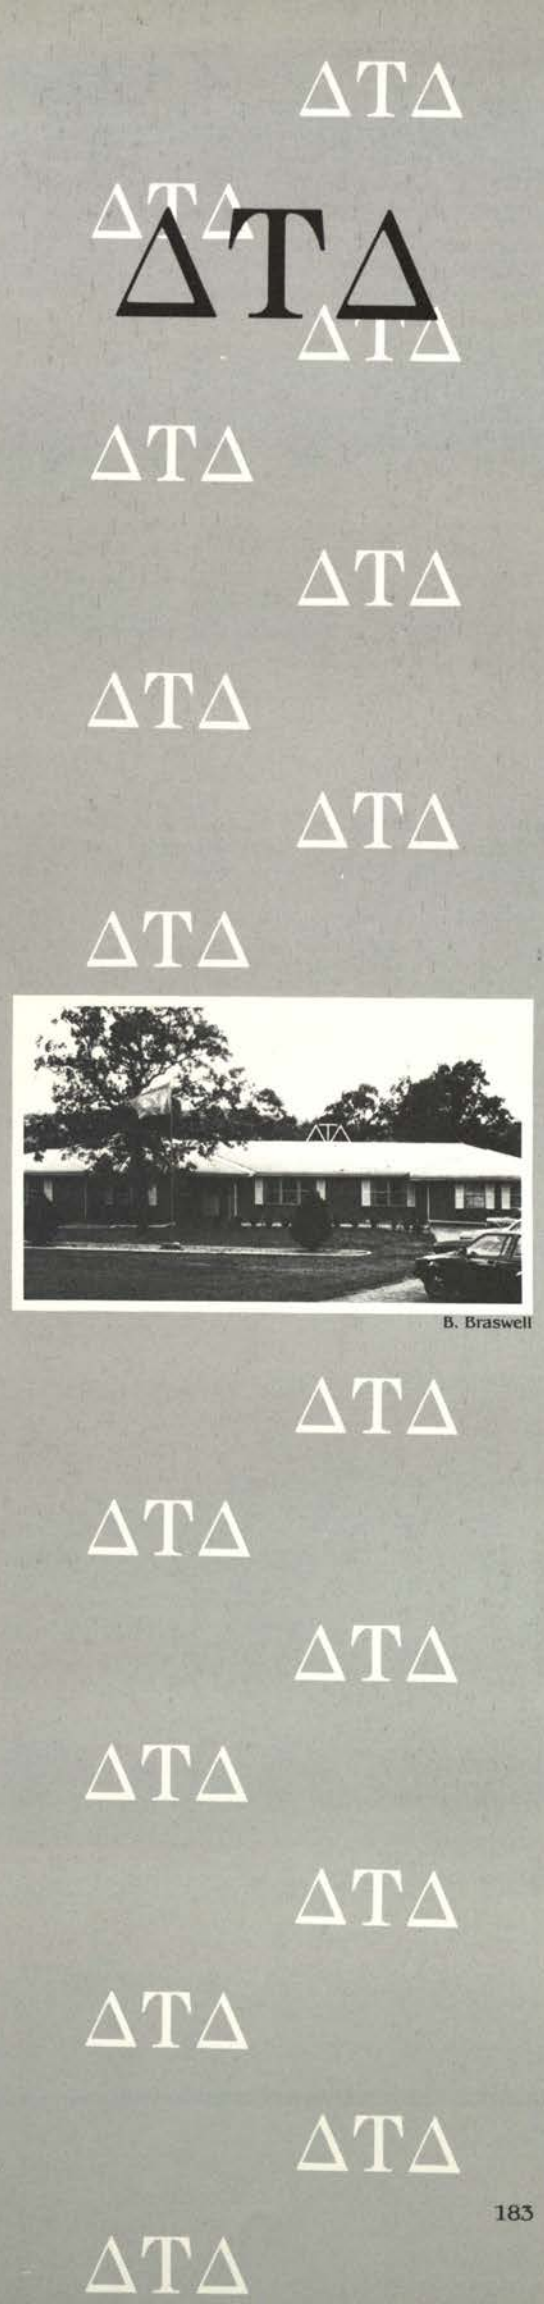

B. Braswell

Nearly passed out from the festivities, one of the Delts reclines in a bath tub during St. Pat's.

A spirit of excellence and tradition build Brotherhood

For their active role in the Kappa Alpha Fraternity, the Beta Alpha chapter at UMR was awarded their fifth Ammen Award for chapter excellence during the summer of 1986.

Old South Week started the fall semester off right with the traditional hayride, dance, bar night, hot tub night and serenading of the sororities. Homecoming brought on the revival of an old tradition as a lawn display was built for the first time in years.

Kappa Alpha joined with the Newman Center, Baptist Student Union and Wesley to raise \$980 for local charities and Kappa Alpha's

national philanthropy (MDA) through a haunted house at the Newman Center. Then as the fall semester drew to a close the brothers held a Christmas party for the local underprivileged children.

The spring semester started off with the annual Valentine's Day Mas-sacre party with Kappa Sigma which was a great success. Enthusiasm mounted with the building of a cud-gel and float for St. Pat's. The KA's ended a productive year with a car wash for MDA.

High standards and determination provide a firm foundation for Brotherhood

Kappa Alpha Psi Fraternity, Iota Omega Chapter, since its existence on the UMR campus has been continuously reaching out to the students and the community.

Kappa Alpha Psi seeks to: unite college men of culture, patriotism, and honor in a bond of fraternity; to encourage honorable achievement in every field of human endeavor; to promote the spiritual, social, intellectual, and moral welfare of its members; and to inspire service in the public interest. These fundamental purposes give Kappa Alpha Psi its unique and distinguishing aspects, as summarized by its found-

ing fathers: "Whatever is done must be done well and in accordance with the highest standards."

Some of the recent achievements of the chapter include second place in Division I basketball, the establishment of a student revolving loan, and success in their college bound Guide Right Program which encourages minorities to look more into higher education. The chapter was also named Mid-Western Providence Chapter of the Year, an award in recognition of the determination and commitment that the brothers of Kappa Alpha Psi demonstrated throughout the year.

Building on past success, Kappa Sigma gets Bigger and better

The 1986-87 year was a very good year for Kappa Sigma. The Beta Chi Chapter started off the year with the biggest pledge class on campus, and bigger plans for the house. This school year saw major improvements to the Kappa Sigma house. The chapter room was moved downstairs and a new TV room was put in.

On the social agenda, Kappa Sigma played host to many parties on campus: The Virginia Circle Party, the Valentine's Day Massacre Party with Kappa Alpha, the White Castle's Open Campus Party during St. Pat's, as well as many IFC functions and teas with the sororities and the Stardusters.

Besides these parties, Kappa Sigma also held a fund raiser for Cerebral Palsy. Several brothers ran from St. Louis to Rolla on October 4th while other brothers collected money throughout Rolla on street corners. That night a party at the Kappa Sigma house accepted more donations at the door. Over \$1000 dollars was collected for Cerebral Palsy.

Next year Kappa Sigma hopes to build upon the achievements of this year, both on campus as well as off.

Christian ideals and charity serve the Community

The Alpha Delta Zeta chapter of Lambda Chi Alpha was initiated as the 34th chapter on April 26, 1917. It differs from other fraternities, in the fact that they have a non-hazing policy and an associate program instead of a pledge program. Lambda Chi Alpha is a social fraternity with ideals based on the Christian faith.

These ideals are portrayed by their service to the community. Lambda Chi has annual events to raise money for charity; for example, the Chicken Benefit Dinner and

Night at the Fights. In addition to fund raising, they visit the elderly, hold an annual Christmas party for the underprivileged children, and other community service projects.

Lambda Chi is involved on campus as well. They have members participating in various campus organizations and in intramurals and have taken first place in volleyball two years in a row. Lambda Chi Alpha is active both on campus and in the community.

*Alumni and actives join to
celebrate*

50 years of success

The start of the fall semester Phi Kappa Theta was busy doing some renovations on the house.

This included new flooring on the first floor and the reception room which have both been completed. Plans are in the making for major renovation projects for the house and annex.

Also, during the first semester, the Phi Kappa Theta house celebrated its Fiftieth Anniversary based on the merger between Phi Kappa and Theta Kappa Phi. The official anniversary date was November 29, 1986, and in accordance with this, the Phi Kaps held a formal dinner and celebration at Zeno's in Rolla. The celebration was a great success with numerous past alumni joining the present Phi Kap students. The

old and the new mixed to make the evening one to always remember.

The weekend of April 10 witnessed the community awareness and dedication to service found in the men of Phi Kappa Theta. In conjunction with the Gamma Alpha Delta service fraternity, more than fifteen members of Phi Kap came to the aid of the Kangaroo Kottage Day Care Center located in Rolla. Utilizing a lot of hard work and a little practical engineering knowledge, the men of Phi Kap were able to construct a large free standing shelter and an accompanying sand box. It was to the delight of both those working on the project and those now enjoying the benefits of another successful service project.

Time out is called to go over the strategy for the final minutes of the game.

After some intense drinking Phi Kappa Theta walks away with 1st place in the quarter barrel chug.

Many actives and pledges found themselves lending a hand to help complete the renovation plans.

High expectations and anticipation create A winning year

Pi Kappa Alpha began the 1986-87 school year with the annual "Watermelon Bust" and initiating fourteen new little sisters. Four new brothers were also initiated into the fraternity.

The second semester began with Pi Kappa Alpha holding initiation parties for the three sororities on campus. Shortly after, eighteen new brothers and two new little sisters were initiated.

The St. Pat's celebration began with Pi Kappa Alpha having high hopes for a strong finish. When the competition was over, with the help of a first place cudgel and a strong

showings in the St. Pat's Follies and Games, Pikes had won its fourth St. Pat's in a row. The men of Pi Kappa Alpha kept the winning tradition going with a strong showing in Greek Week '87.

Throughout the year pikes help many charity projects to aid the community. Pikes also proved to be a strong adversary in many of the intramural sports and finished well in the competition. Overall, the men of Pi Kappa Alpha continued a strong tradition of excellence.

By: Mark Helein

Homecoming brought out the true school spirit of the Pikes as they welcome alumni home for the game with a party.

At the annual Pike Halloween party Fred Kielhorn, Mike Morey, and Diane Voss joined in the crazy behavior characteristic of this holiday.

*An all out effort
sets the pace for a*

Triumphant year

The year 1986-87 has proved to be the most successful in Gamma Lambda Chapter of Pi Kappa Phi's history. At Homecoming we participated in the parade with the Schaffer Shuttle. (It was first to go up in flames at the bonfire.) November brought on our annual Founder's Banquet and 1st Rose Ball Formal.

Pi Kapps put out a strong whole house effort in helping charity this year. The 5th Annual PUSH-a-thon raised over \$1200 for our National Philanthropy PUSH (Play Units for the Severely Handicapped.) Also, everyone

helped to win the participation trophies for the IFC Fall Cleanup and Stuco Blood Drive.

Pi Kappa Phi ended the year by a strong showing in Greek Week with a 3rd place chariot and booth and 3rd place overall, narrowly missing second place.

With such success to build on in the future and a proven high academic record, Pi Kappa Phi promises to be an active force on campus in years to come.

Sir Dave prepares to do battle with Alice.

Sigma Chi shows their generosity through Charity involvement

The fraternity had its beginning back on June 28, 1855, becoming the third fraternity of the Miami Triad.

The Theta Eta Chapter of Sigma Chi was very involved in community projects this year. In the Spring semester alone, Sig Chi sponsored its

best aluminum recycling drive ever, visited the elderly, gathered clothes for the L.O.V.E. organization, and held an Easter egg hunt for the children of the Rolla School for the Deaf, demonstrating the fraternity's commitment to serving the community.

Pulling together as a team *Sigma Nu proves to be* **Strong contenders**

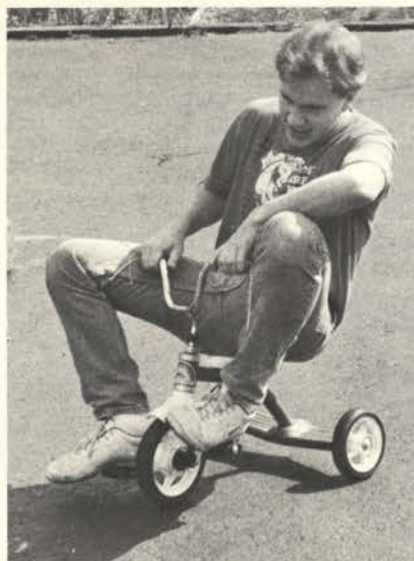

Sigma Nu was founded on January 1, 1869 at the Virginia Military Institute. The Gamma Xi chapter here at UMR was established in 1903.

This year's accomplishments include: a successful Homecoming, a fantastic St. Pat's and a good showing in Greek Week, which included the fraternity's first show chariot ever. Socially, Sig Nu's annual toga party with Sig Ep went over well and had a large turnout.

In the community, Sig Nu sponsored a tricycle marathon with Chi

Omega to benefit handicapped children at the B. W. Robinson State School.

Finally, Sigma Nu walked away with the "Hardluck Trophy" in recognition of their close finishes in football, basketball, and softball. In addition, brother Larry Payne came away with the honor of Athlete-of-the-Year for his outstanding play in all the sports he participated in this year, helping the fraternity to have an especially good season.

M. Broeker

The object to Sigma Nu's Tricycle Fund Raiser was to race through a lengthy course, the shortest time earning the most money.

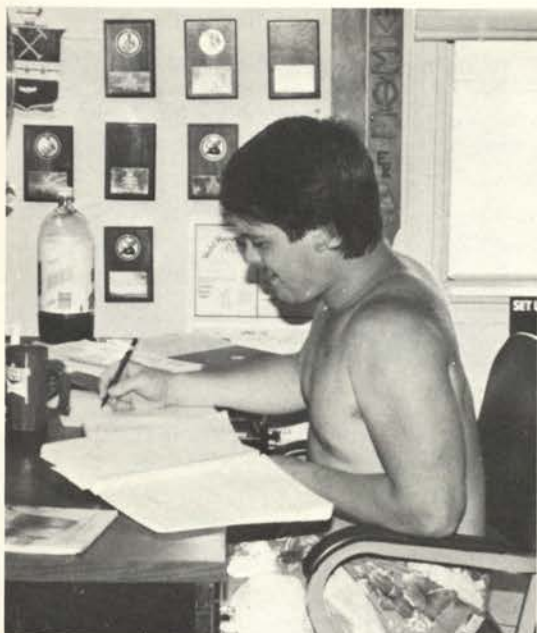

Outstanding athletic endeavors provide a Winning year

Spring semester brought much progress at the Sigma Phi Epsilon house. Beginning with St. Pat's, the fraternity did well over 100% better this year as opposed to last, largely due to increased participation and their first place float in the St. Pat's parade.

On the social side, Sig Ep helped to bring about social responsibility to parties on campus by initiating a number of special precautions toward drinking. These precautions are expected to eliminate

many types of senseless accidents that have occurred in the past.

Finally, as the end of the semester rolled around, Sig Ep combined their outstanding effort in intramural sports throughout the year for a 1st place finish, their ninth consecutive intramural championship ending the year on a winning note.

Combining all efforts Sigma Pi builds a Brotherly bond

The brothers of Sigma Pi started off the fall semester with 25 psyched pledges who proved their ability and willingness to participate in activities with the active chapter.

Sigma Pi held several noteworthy activities. For Halloween, the chapter held its annual "Great Pumpkin" and outhouse burning to entertain local kids. Early in the fall semester, Sigma Pi helped Zeta Tau Alpha by participating in their See-Saw Marathon. The chapter's fall GAD project involved painting the kitchen and dining area of the Holloway House. In the spring, the chapter's GAD project included a "Buggy Bath" raising over \$250 for Multiple Sclerosis; and helping World Impact gut out the inside of an old YMCA building, for use as temporary housing for the homeless. Among other service projects, they raised over \$3500 to help Muscular Sclerosis by collecting money on North St. Louis County street corners. Their success in these projects has proven their ability to help people.

On campus, Sigma Pi received the IFC cleanup manpower award and the 12th man award. Sigma Pi also took first place in the IFC Greek Sing. The chapter's participation in this year's St. Pat's also netted Sigma Pi fifth place overall, which included third place on the float, second in non-float, and placings in many of the follies and games.

Reorganizing and renovation combine for a Memorable year

Sigma Tau Gamma was founded at Central Missouri State Teachers college at Warrensburg, Missouri on June 28, 1920. Here at UMR, Alpha Omega chapter received its charter on November 10, 1956.

Sig Tau's social season started with a strong showing at Septemberfest. In October, many alumni returned to Rolla to celebrate the Alpha Omega Chapter's 30th Anniversary. In the second semester, Sig Tau was psyched for St. Pat's. Placing in many events, they finished second in the overall competition. The spring semester ended with another strong finish in Greek Week.

Sigma Tau Gamma's accomplishments for the year include reorganizing the house officer structure, starting an out-of-house pledge program, and raising funds from Alumni donations to place a new roof on their house, all of which made this year one of Sig Tau's most memorable.

Fraternity life provides atmosphere for making Lasting friendships

Nineteen hundred and eighty seven marked the 40th year that Tau Kappa Epsilon has been represented on the campus of UMR. Now, as then, the men of TKE still carry on the tradition of excellence that has marked their history and made TKE a leader among fraternities at UMR.

TKE at UMR participates in many activities on campus as well as in the community. This is evident in the amount of money that TKE raises for various charities through their participation in the Greek Week celebration. Over the past 32 Greek Week celebrations, TKE has taken 29 first places with two ties and only one loss.

TKE is also well represented on campus wide organizations. This year's St. Pat, Eric Smarko, represented Tau Kappa Epsilon throughout the 1987 St. Pat festivities. In addition, many of the brothers hold offices in campus organizations, and

receive numerous awards.

To wrap this up, "TKE stands for Brotherhood." This is evident in the family-like atmosphere of the house. If you were to ask anyone in the house what was the greatest benefit they received from college, they would reply "The life enduring friendships we have made as being a member of TKE."

J. Robertson

TKE's Party of the Year was a perfect opportunity for dancing the night away.

J. Robertson

Theta Xi makes changes with reinstatement of Little Sisters

The Brothers of the Alpha Psi chapter of Theta Xi have had a very successful year. All the brothers worked together for the Homecoming competition and took 2nd place with their float and 3rd place with their entry for Homecoming queen. They also were more competitive with their much improved intramural team. The brothers of Theta Xi also thought it was time to reinstate their Little Sister organization. Theta Xi had a year of improvements and changes.

The brothers of Triangle, the National Fraternity of Architects, Engineers, and Scientists; Missouri Mines chapter have had a very successful and rewarding 1986-87 school year. Once again, they took first place in the Christmas house display, making this 8 out of 9 years. They also won third place on the Homecoming float. In intramurals

they placed second in flag football and finished strong in soccer. Next year they again hope to excel in both athletics and academics as they have done this year.

Greek Week

Mini-Olympics

This years Greek Week began at 2:00 on Monday, April 20 at Beta Sigma Psi with opening ceremonies attended by hundreds of representatives from every Greek organization. The first events of the week, the tricycle relay, the football relay, and the triathlon events began soon after, with the day being capped off by a special Bar Night at the Cavern.

The next big event came on Tuesday with the Mini-Olympics, which were held at Beta Sigma Psi. These events, reminiscent of the movie *Revenge of the Nerds*, included: finding a gumball hidden in a mound of whipped cream without the use of hands, eating lots of crackers and then trying to whistle, stacking cups and saucers and walking back and forth without spilling them, leapfrogging, and tricycle races around an obstacle course. The day ended with Bar Night at Bruno's.

B. Booth

The first challenge in the Mini-Olympics was to find a gumball hidden under a mound of whipped cream.

B. Booth

Tim Edwards of Kappa Sigma carefully balances cups and saucers in the fourth leg of the Mini-Olympics.

B. Booth

Carrying a quarter between knees downfield and then dropping it into a cup proved to be more difficult than anticipated.

B. Booth

The Last Leg: Leapfrogging toward the finish line Sigma Pi's team put in an outstanding effort.

B. Booth

Tricycle races around an obstacle course provided a few suspenseful moments.

B. Booth

Mark Schlemeier, representing the Greek God, Kottus found the festivities during the Mini-Olympics to be a little too intense.

B. Booth

And One for the Road: Concentration makes the difference in keeping the cups and saucers from tipping.

Indian was the name of the game at the Greek Week Barbeque.

M. Broeker

Sending it Home, one of the many pitchers of the game adds a little extra effort to the ball.

Barbecue and Queens

The events on Wednesday began with the Barbecue at Lion's Club Park, an event which included the annual IFC-St. Pat's Board softball game: Next, the Queen's Tea for this year's Greek Week Queen candidates was held at Delta Sigma Phi. That night, the IFC sponsored two benefit showings of the movie **Back to School** starring Rodney Dangerfield at the Uptown Theater. An after movie party was held at Beta Sigma Psi.

Thursday got off to a roaring start with the Idi-Odysseys, held up on campus on the hockey puck. The Idi-Odyssey's featured many skits, including bits involving centaurs, trojan horses, and Greek soliders. In addition to this, the Greek Physique contest helped to get people psyched up for the weekend. That evening, the annual IFC-Panhellenic Banquet was held at the Knights of Columbus Hall, where the IFC-Panhellenic Man and Woman of the Year were announced, and at 9:00, a beer-bust at Lion's Club Park finished off the day.

Follies and Carnival

On Friday at 6:30 in Lion's Club Park, the Greek Week Carnival got underway. Here, the Greek organizations assembled booths to collect money for this year's charities: the Able Commission, who runs Holloway House, the Rolla Cerebral Palsy school, and L.O.V.E. Lambda Chi Alpha's booth was first place at the carnival for originality, but Pi Kappa Alpha's booth collected the most money, with Tau Kappa Epsilon placing a close second in both categories. This exciting evening finished off with the Greek Dance at the Armory.

B. Booth

Pi Kappa Alpha's booth at the Greek Week Carnival required a steady hand and good aim.

B. Booth

Kappa Sigma's musical extraordinaire Dan Lumma rocked away the evening as host of an audio quiz game.

B. Booth

Alpha Epsilon Pi's booth "Battlin' Tops" was one of the more successful games at the carnival.

B. Booth

Triangle's booth "Cock-up-the-Hole" attracted a lot of attention. Triangle also made and sold buttons from their booth.

Games

Finally, on Saturday, Greek Week was officially ended with the Greek Week Games at the Elysian fields. Here, soccer, volleyball, keg tossing, egg eating, and chariot races provided an exciting afternoon. The final tallies are as follows: this year's Greek Week Queen was Sigma Phi Epsilon candidate Susan Turner.

Once again Tau Kappa Epsilon compiled the most overall points, making them the winners of Greek Week for the thirteenth straight year. For sororities, Zeta Tau Alpha walked away with this year's laurels, with Chi Omega a close second, helping to make this year's Greek Week one of the most successful ever.

B. Booth

One Down, Three to Go: Triangle Fraternity's team down their first cans in the Beer-a-Mid competition.

B. Braswell

Three on a team, soccer was also one of the most grueling events.

B. Booth

Sigma Nu's Beer-a-Mid team puts it together after drinking the required four cans of beer.

B. Booth

Going as Low as You Can Go: The Limbo contest was one of the most popular events at the games.

B. Booth

Men's volleyball served up lots of excitement throughout the afternoon.

Shamrock project is recognized with the declaration of National KΔ Day

Epsilon Alpha Chapter of Kappa Delta had a fun and exciting year. They participated in many events and raised money for their philanthropies. This year Governor John Ashcroft declared March 14th National Kappa Delta Day for the efforts with the Shamrock Project. The Shamrock Project is a project in which all of the chapters of Kappa Delta across the nation raise money for the National Committee for the Prevention of Child Abuse.

This year was particularly good for Kappa Delta because they were able to win the overall women's division for St. Pat's. To help achieve this goal the sisters also pulled together and made a good showing in all of the events. They also won Sigma Chi's Derby Days. It took a lot of hard work and dedication to win these events. Kappa Delta hosted many social events this year and are looking forward to next year with

many goals to achieve.

Laura May and Wendy Jutte hold Ali Hashimi, Eric Streutermann, and Mike Schmitt at gun point as they await fraternity brothers to provide money, which will benefit one of Kappa Delta's national philanthropies.

Tracy Ball does her part to help prevent child abuse by collecting money for the Shamrock Project.

A recent house addition unites the sisters for a New beginning

The sisters of Zeta Tau Alpha have experienced a very exciting and productive year. It has been a year of firsts. They began the year by moving into a single house for the first time. The addition adjoining the two houses was finally completed over the summer and now they have a renovated new house, complete with an industrial kitchen, something long awaited by the cooks.

With the new house Zeta felt it was time to hire house boys to help with the dinner chores. These men helped clean up dinners in ex-

change for meals at the house, which proved to be a learning experience for both.

The first annual See Saw Marathon was held which involved the whole campus in raising money for the Gingerbread House. It was such a success, that they have been contacted by several other charities, requesting their help.

Zeta had a very successful year in the eyes of the National Fraternity. They received the most prestigious award and the providence chapter award at the regional conference in April.

Zeta participated in both St. Pat's and Greek Week, in which they took first place with their chariot and overall Greek Week. The year ended with the annual Spring Fling formal at the Lake of the Ozarks on the Larry Don.

Septemberfest '86

M. Hall

Kappa Alpha fraternity held a Septemberfest Brunch to get people excited about the event.

M. Hall

This year's event featured live music by the band "Diamond" which performed for large crowds throughout the afternoon.

St. Pat's

On Saturday September 13th under sunny skies in Lion's Club Park, the St. Pat's Board sponsored Septemberfest '86.

The theme of this year's event was "The Green Side of the Moon" taken after the name of Pink Floyd's album "The Dark Side of the Moon." As a result, one of the most popular items to wear to the park were green buttons with the album cover's artwork of a white beam of light passing through a prism.

Also popular at this year's Septemberfest was the second annual "Psych-a-thon." Once again, each organization that participated sent a four-man team to compete in three St. Pat's events: the Keg Toss, the Keg Carry, and the Keg Relay. Triangle won this year's first prize, a half-barrel of beer, after compiling the most overall points in all three games.

Finally, the infamous Sexy Legs contest capped off this year's Septemberfest, the culmination of an entire afternoon of beautiful weather, entertainment and crowd enthusiasm which made Septemberfest '86 one of the best ever.

M. Hall

Sigma Tau Gamma's Mike Wescott and Mike Wilkening stride to win first place in the Keg Carry. Falling short, they never-the-less turned in an outstanding effort.

M. Hall

Enthusied fans cheer on participants Jim Deters and Rick Martin at the "Psych-a-thon."

M. Hall

Rick Martin of Tau Kappa Epsilon races along with a keg in one of the Psych-a-thon games.

M. Hall

M. Broecker

At the Hockey Puck, the board gets psyched by selling green in all kinds of weather conditions.

The frolicking court members entertain their loyal subjects during the games.

There is never time to rest for the St. Pat's Board since the preparations for the 1987 St. Pat's celebration began the day after the 1986 celebration was over. Throughout the year they hold fund raising events and volunteer their services to the Rolla Christmas Parade and provide St. Pat's memorabilia to area handicapped children.

By October the sights and sounds of St. Pat's are becoming evident. St. Pat Board members are found in front of the hockey puck trying to persuade students to buy green.

The 6th annual Belly Up With the Broads was sponsored by the Little Sister Organizations. The belly up was once again a great success as the crowd left Sig Ep psyched for the week ahead. The following week saw belly ups at the neighborhood bars.

Psyched and ready to go it was bound to be the "Best Ever."

T. Braiser

M. Broecker

M. Broecker

The challenge of "Chug" is usually responded to by "Here's to the St. Pat's Board!"

St. Pat's

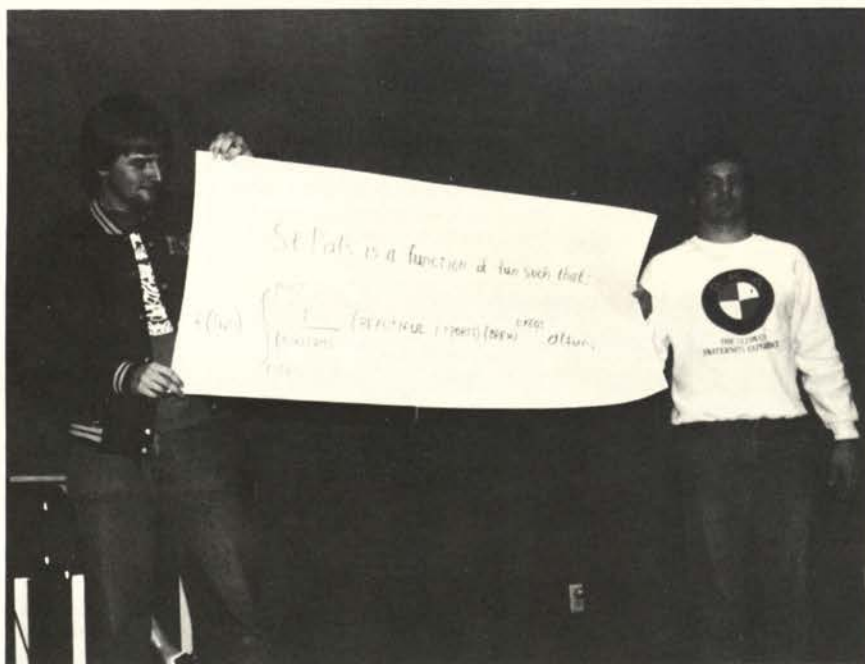

The campus must be cleared of all snakes in preparation for the arrival of St. Patrick, the patron saint of engineers. This task is accomplished by no other than the UMR freshmen one week prior to the festivities. Once the snakes have been cleared the official beginning of the celebration begins in traditional fashion with the arrival of St. Pat and his court by handcar. They then proceed to 209 where a crowd awaits for the first keg of green beer to be tapped.

Follies Week is filled with various contests which are designed to get the participants psyched for the upcoming festivities. New events for the year included Best Group Cheer and Most Sweatpants on in One Minute. The community also gets involved in the St. Pat's contests with judging of the best window display and a beard contest.

T. Brasier

The annual arrival of St. Patrick and his court marks the true beginning of the celebration. After their trip on the railroad handcar to the depot, the court and their loyal subjects tapped the first keg of green beer at 209.

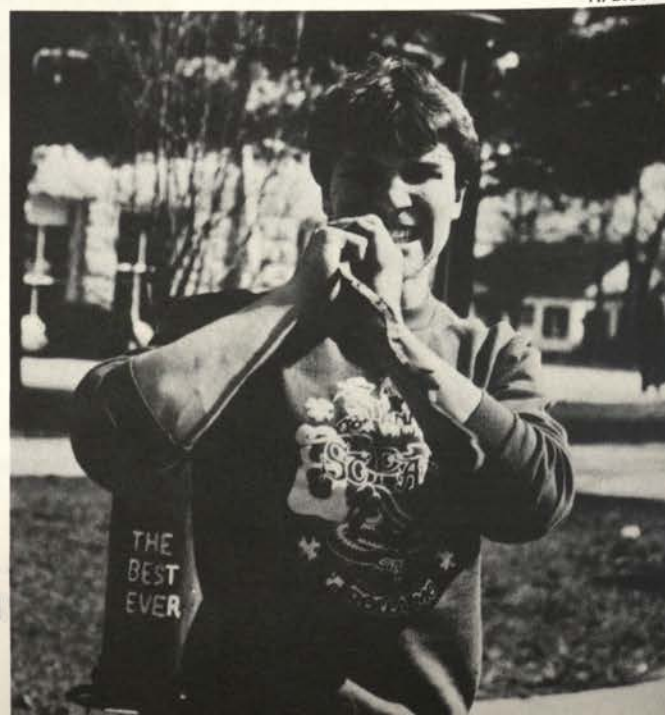

G. Oellig

Only engineers would define fun in mathematical terms.

Mike Wilkening making positively sure of the snake's death by biting off his head.

B. Booth

An eight man quarter barrel team ready for intense consumption.

M. Broeker

Extravaganza attracts all kinds of entertainment.

M. Broeker

Alumni board rep illustrates the correct way to draw a shamrock.

Thursday marks the beginning of a brief vacation in which many of the students set aside the books and head out to Lions Club Park for the Extravaganza. A short ride on the buses provided by the board psyches the crowd up for the Best Ever. As they are dumped at the park, with cup in one hand and ID in the other they head for the security check point where those who have reached the legal age of 21 can have their hand stamped to allow entry into the "beer area." Then it's off to your favorite beer truck to start the day off on the right track.

A few beers later the crowd gathers around to watch the Quarter Barrell Chug. With a baby rep close by the teams tap the keg and begin to chug. Team after team is disqualified for various infractions and within minutes Phi Kappa Theta had finished their keg.

Little John provided music throughout the afternoon and as the time approached for the Sexy Legs Contest the crowd around the stage began to grow. The familiar cheer "Skin to Win" was heard as the participants slowly came forward. The first to show off his sexy legs was Eric Stocklausner, which soon had the girls participating as well. "Jennifer" walked away with the distinguished title of "Sexy Legs" after demonstrating her St. Pat's spirit.

The afternoon drew to a close as the beer trucks began to run dry and the students headed home to rest up for another day of fun in the sun at the games on Friday.

T. Braiser

Drinking buddies Rena Salchow, Doug King, Lori Dubin, and Scott DePriest show how much fun Extravaganza can really be.

Alumni board reps paint Pine Street green in preparation for the 1987 St. Pat's Day Parade.

E. Ward

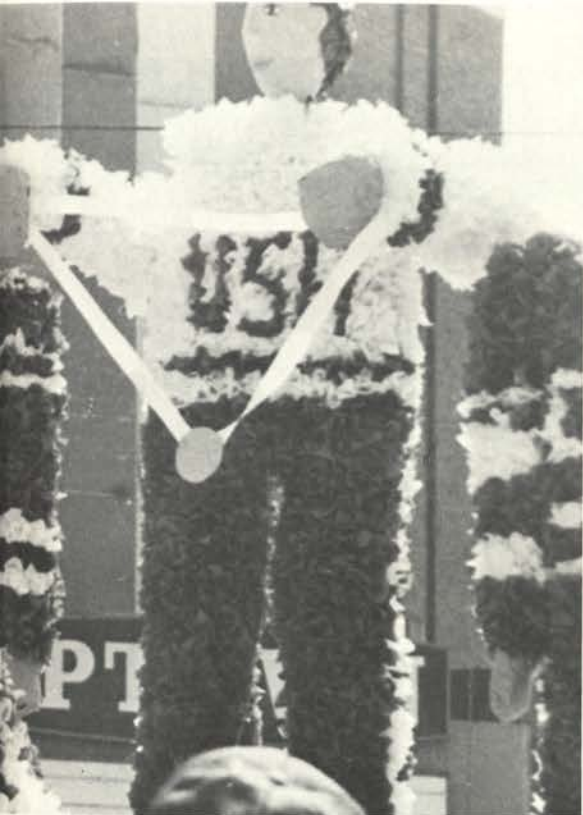

T. Braiser

Proceeding through the green paved street of Rolla, St. Pat and his court precede the traditional spreading of manure behind them.

This years Queen of Love and Beauty, Teresa Stover, waves to her admiring subjects.

Sigma Nu's second place float depicting the 1980 Winning of the Gold Medal at Lake Placid.

T. Braiser

T. Braiser

Alumni rep Jerry Edwards from Alpha Epsilon Pi takes a breather from painting the street green.

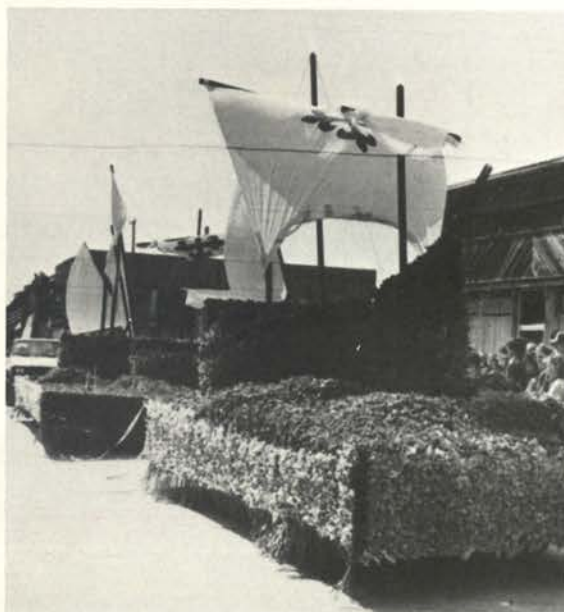

Sigma Pi's 3rd place float depicted the Gold Rush of 1849.

Early Saturday morning, the alumni reps can be found on Pine Street with a mop in one hand and a glass of tea in the other making sure that the entire street is colored green. Once this is done St. Pat takes his traditional ride down the street as the students, guests, and Rolla Citizens gather to watch the parade. This years theme was "Great Moments in History" in which 15 floats were built by student organizations depicting scenes from the past. Onlookers saw replicas of some of the most important events in the history of America. Sigma Phi Epsilon's replica of the Nina, the Pinta, and the Santa Maria won first place in the float category. First place in the non-float category went to Lambda Chi Alpha's Precision Lawn Chair Marching Team.

E. Ward

Alpha Epsilon Pi's float entry depicting the Meeting of the Rails at Promontory, Utah, signifying the historical moment of the completion of the first transcontinental railroad.

T. Brasier

Sigma Phi Epsilon's first place float entry depicting Columbus' Ships.

St. Pat's

Once the parade has ended the crowd heads over to Jackling Field where the informal knighting ceremony is held. Representatives are chosen from various organization for the dubious honor of being a Student Knight. The Knighting of Honorary and Student Knights as well as the Coronation of the Queen of Love and Beauty took place during a formal ceremony on Friday night. Meeting Alice completes the honor of becoming a Knight of St. Pat. The unique personality of each Knight comes out in an attempt to impress Alice.

St. Pat's comes to a close with a concert sponsored by Student Union Board and the St. Pat's Board. The Elvis Brothers provided entertainment as the opening act to Cheap Trick. Combining music, dance, and painting Denny Dent performed an Art Attack.

The Best Ever was over and the count down began again. Only 369 days til the Best Ever of 1988.

M. Broeker

Waiting patiently for the next victim, Eric Smarko and Teresa Stover take their positions as St. Pat and the Queen of Love and Beauty during the Alice festivities.

M. Broeker

The crowd anxiously awaits the next dunking of a student knight into Alice.

M. Broeker

John Adams, Student Knight from RHA asks "Is it time for my Saturday night bath already?"

B. Braswell

M. Broeker

The Editor-in-Chief of the Miner, Mella Baxter doesn't seem daunted by her brief encounter with Alice.

Graduating senior Craig Thomas (Delta Tau Delta) says goodbye to UMR and Alice.

M. Broeker

Denny Dent gets energized to create as he warms up for the St. Pat's Concert.

M. Broeker

Robin Zant, lead singer of Cheap Trick reaches a tender note while singing one of their many hits.

M. Broeker

The Elvis Brothers' drummer entertains the audience by balancing on his drums.

B. Braswell

St. Pat's board rep Jim Whorton takes over from Rick Nielson in one of the high points of the concert.

M. Broeker

Robin Zant, Rick Nielson, and John Brant trade musical notes during their performance.

B. Braswell

Not content with any one guitar he played during the concert, Rick Nielson tried to incorporate many guitars into one.

Dorm life helping charities while making Friendships grow

The residents of the Quad kept busy this year. The year started off with a new housing manager Karen Brentz who had a lot of good ideas and wanted to make the adjustment for the residents a little bit easier.

The Fall semester started off with many activities to get everyone acquainted. A pig roast and watermelon social was held out on the lawn to serve this purpose. A beach party was also held in Rayl in which there was dancing and it proved to be a lot of fun. Movie nights were also set up and depending on the weather they were either shown in Rayl or out on the lawn. The Residence Hall Association also hosted a Party Cruise and a Sadie Hawkins Dance.

The Fall semester ended with a

lot of good memories for the residents. The skating rink was rented out in which everyone had a chance to set aside the books for a couple of hours to relax and have fun. The annual Christmas Decorating contest was held with Houses 2 and 6 tied for 1st place. House 2 depicted a Mash scene and House 6 represented the Peanuts characters. The judging was done by Chancellor Jischke.

The Spring semester rolled around and what better way to start it off than to have a Superbowl Party Shuffle for all the big football fans or anyone interested in having some fun. Valentines Day brought about the selling of Valograms and Broken Hearts in which the proceeds went to the purchase of VCR's for the Quad.

A Christmas Roller-Skating Party was one of the many social events sponsored by RHA.

Dorm life is helping charities while making **Friendships grow**

Quad "C" Week was a week filled with activities to raise money for charities. The Penny Mile consisted of each house collecting pennies which were laid out in one long line. House C had the longest line with over \$70 in pennies. Saga donated money to the National Site for the 114 students who fasted. Canned goods were also collected and where given to LOVE.

A few other activities included a House Feud and Easter Beamers in which mail grams were sent out. The traditional Mr. Quad Contest was also held and Joseph Thum walked away with the title of Mr. Quad.

The year provided the residents of the Quad with many memorable events and with new and lasting friendships.

Thomas Jefferson Hall shows school spirit with an Active year

The 1986-87 school year was one of adventure and for some a new experience. TJHA kept the students very busy this year by involving them in different types of activities.

If you are the competitive type person, TJ was the place to be. Not only did they participate in intramurals but they also competed amongst themselves. There were several tournaments such as billiards, ping pong, and spades held.

They also had basketball and softball games between the floors and then they had a different sort of game called the Roommate Game. TJ proved their strength and will to win by finishing first in Division 2 Men's basketball and soccer. The women also showed their athletic ability and won the McDonald's Relay Contest. Besides being involved in all this TJ also built floats for homecoming and St. Pat's. If playing sports wasn't your thing, then why not attend a Blues hockey game, a St. Louis or Kansas City football

game sponsored by TJHA. With all the activities going on everyone had to be able to find something they enjoy doing.

Rockaway, John
Rodseth, Martin

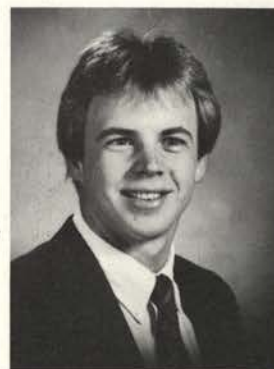

The Honorable John Ashcroft, Governor of Missouri, presented the May commencement address. He guaranteed his address would not be dry and Mother Nature helped out as it began to pour shortly after he began to speak.

Gutknecht, Sharon Marie
Steelville, Missouri

Melchers, Joyce Ann
Salem, Missouri

H. Gaber

May Commencement was a very special day for nine UMR professors. Receiving the title Professor Emeritus were John M. Amos, William A. Brooks, William R. Carroll, John L. Fletcher, Stig E. Friberg, John W. Hamblen, Clifford D. Muir, Bernard R. Sarchet and Emma Jean Walker. Some are going on to explore other careers while others will be simply retiring to enjoy the good life. No matter what their plans for the future, they are all wished the best of luck in their new endeavors by their colleagues and students.

Dr. John W. Hamblen, Professor Emeritus of Computer Science has been at UMR since 1972 and received his PhD in 1955 from Purdue.

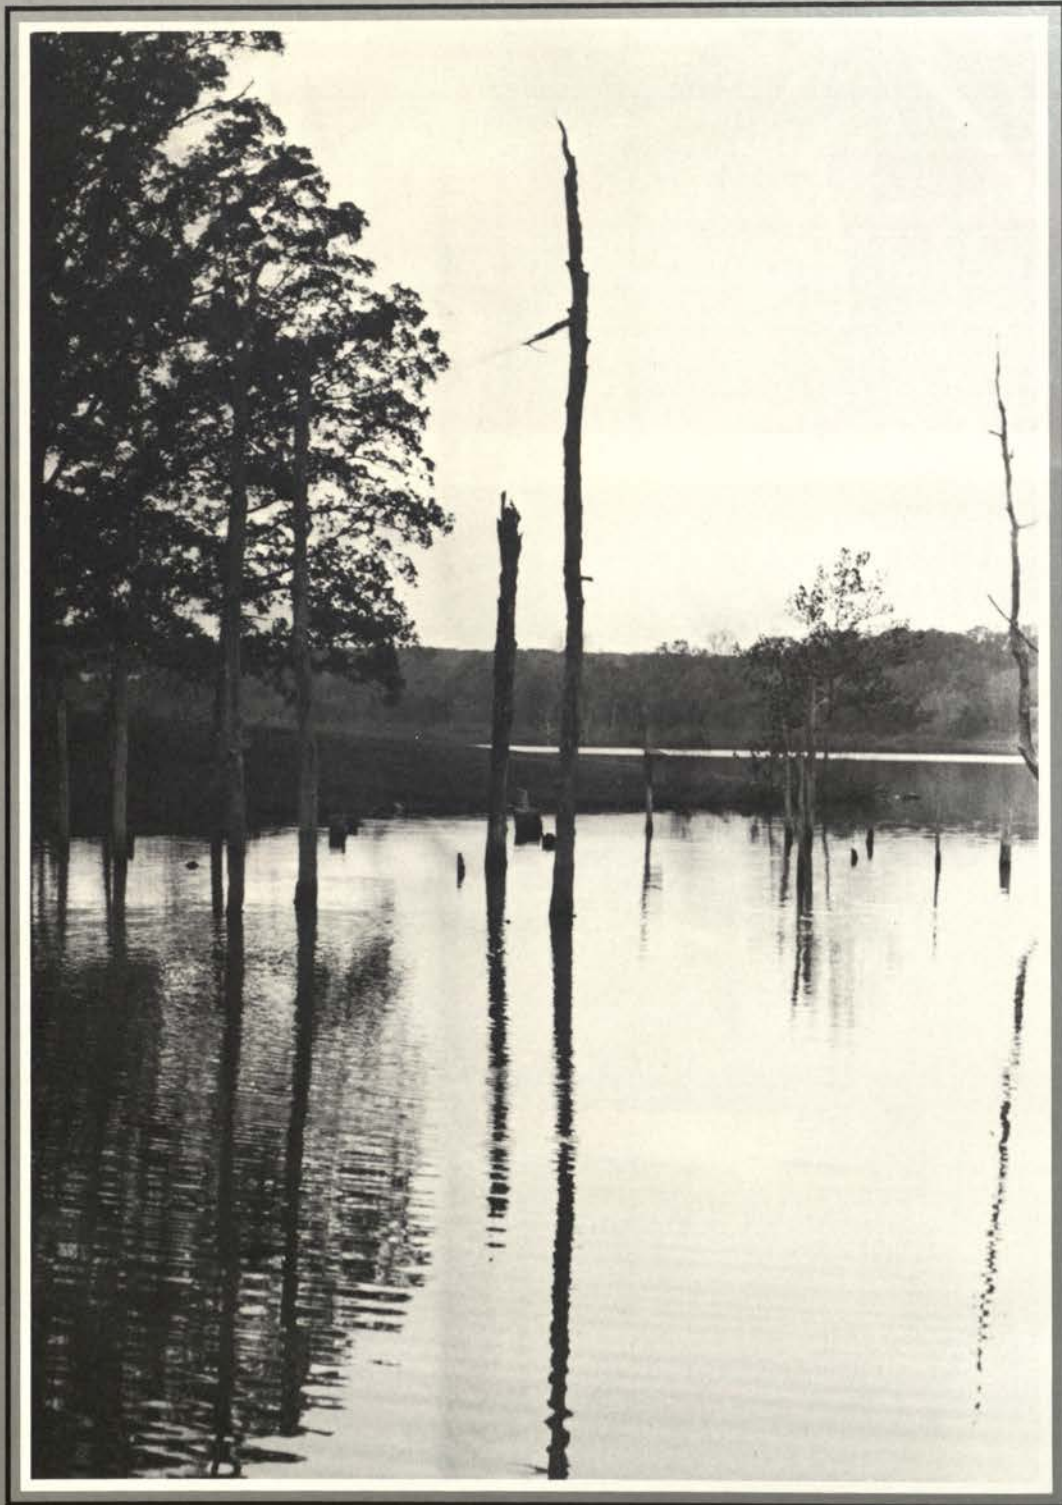

Professor Bernard R. Sarchet, Professor Emeritus of Engineering Management has been at UMR since 1967 when he founded the Department of Engineering Management. He received his M.S. in 1941 from Delaware.

Dr. William A. Brooks, Professor Emeritus of Engineering Management has been at UMR since 1973 and received his PhD in 1970 from Kansas.
